## TWO VICTORIANS IN FINAL CONTEST FOR KING'S PRIZE

Soviet And China  
Are Asked To Keep  
Treaty Unbroken

U.S. Secretary of State Reminds Moscow and Nanking Governments Their Signatures Are on Kellogg Pact; Acting Head of Soviet Government Says Moscow Not Drafting War Declaration.

Washington, July 19.—Secretary of State Stimson has called to the attention of both the Soviet Government and the Chinese Government the fact that they are signatories, with thirty-eight other nations, of the Kellogg Anti-War Treaty, in connection with reported threats of war between the two countries.

## NO WAR DECLARATION

Moscow, July 19.—The acting head of the Soviet Government told United States newspapermen Soviet Russia had no intention of declaring war on China over the Manchurian situation.

Citing the Kellogg anti-war pact, which Russia signed, Jan. 1928, in the absence of Alexander Rykov, acting head of the government, said Russia thought the Kellogg pact more precious than the loss of \$5,000,000 or \$10,000,000 involved in seizure of the Chinese Eastern Railway and suspension of trade relations with China.

M. Ruzhutski, Vice-President of the Council of Commissars of the Union of Soviet Socialist Republics, is Acting President of the Council.

REPORTS OF HOSTILITIES  
Osaka, Japan, July 19.—The Harbin correspondent of The Osaka Asahi telegraphed his paper to-day that Russian troops had assumed the offensive and had captured the border cities of Pogranichnaya and Manchuli.

Shanghai, July 19.—Private advice received here to-day stated Russian troops had tried to cross the Amur River into Manchuria at Blagoveshchensk, and had been fired on by Chinese troops, who forced them to retire.

## RIVER SHIPS CONCENTRATE

Shanghai, July 19.—Russian sources to-day said the Soviet mercantile fleet on the Amur River, Manchuria's northern boundary, was concentrating at Blagoveshchensk, whence large bodies of troops could be moved into Manchuria down the Sungari River.

The same sources stated Soviet planes were flying over Chinese territory in northern Manchuria and dropping pamphlets urging the Chinese masses to support the Soviet.

Shanghai, July 19.—A high official of the Chinese National Government who arrived here to-day from Nanking said the government would await the next move by Russia before acting itself.

"Despite Moscow's severance of relations," the official said, "the Soviet remains faced with the responsibility of making the next move. The Nationalist Government is following a policy of watchful waiting. Its leaders do not believe the Soviet will attempt to regain the Chinese Eastern Railway by force."

(Concluded on Page 5)

Harbin Is Under  
Martial Law Now

Tokio, July 19.—Martial law, proclaimed in Harbin by General Chang Ching-hui, military commander of the district, will be enforced with the utmost rigor as a safety measure growing out of the Sino-Russian crisis, it is stated.

Japanese news agency dispatches from Manchuria said Chang had stated in his proclamation that the death penalty would be imposed on persons spreading alarmist reports. All newspapers, including Japanese, were purged of military matters by censors.

Business was at a standstill, with the streets heavily patrolled by Chinese soldiers. Concentration of Russian troops on the Siberian frontier beyond Manchuli was said to have been greatly augmented.

The dispatches said hundreds of Chinese civilians had fled yesterday from Manchuli, the western terminus of the seized Chinese Eastern Railway, and from Pogranichnaya, at the eastern end.

MAN'S NEW ERA  
COSTUME AMUSES  
TORONTO PEOPLE

Toronto, July 19.—A preacher, saxophone player and evangelist of health and joy, Edward Kahrs of Pillsbury, Ont., caused a mild sensation when he appeared to-day on downtown streets of Toronto in a "sewing shorts," a straw hat, sandals and a shirt open at the throat. The evangelist, who belongs to no creed, believes his abbreviated costume will in time make him as "tough as the girls," whose modern clothes he admires.

NEW YORK SEES  
DEMONSTRATION  
AGAINST CHINA

Police Reserves Rout Crowd of Communist Sympathizers From Before Consulate

New York, July 19.—A crowd of several hundred persons, many of them said to be communist sympathizers, to-day staged a demonstration in front of the Chinese consulate at Astor Place here, which police reserves were called to disperse. A number of arrests were made.

The demonstration, made during the lunch hour period, attracted a large crowd.

The participants, carrying placards and shouting threats at the Chinese, gathered in front of the building, which houses the Chinese consulate, but made no effort to enter the building.

Police charged the crowd with nightsticks and bunched several of the rioters into commandeered taxicabs and took them to a police station.

NEW YORK PLANE  
WINGS WAY TO  
WHITEHORSE

U.S. Speed Flier Expects to Reach Nome, Alaska, at 1 a.m. To-morrow

Edmonton, July 19.—Capt. Ross G. Hoyt, attempting a record-breaking flight from New York to Nome, Alaska, and return in a small army pursuit plane, hopped off from here at 8:22 a.m. to-day for Whitehorse in the Yukon, his next refueling point on his 8,400-mile flight.

Coming out of the east with a roar, Captain Hoyt landed his specially constructed Curtiss-Hawk plane at Edmonton at 8:45 this morning, having completed the hop of 1,000 miles from Minneapolis in 7 hours and 58 minutes.

MITCHFIELD FIELD STARTING POINT  
He left Mitchell Field, Long Island, N.Y., at 2:30 o'clock Thursday afternoon and reached Minneapolis at 8 p.m. having taken 7 hours and 22 minutes for the trip, and after staying in the latter city one hour, continued his journey to Edmonton, flying the most of the way through pitchy darkness and through an electrical storm.

When Hoyt arrived at the Edmonton airport he had flown 16 hours 10 minutes and had completed 2,130 miles of his 8,400-mile flight.

When he took off from here at 6:52 a.m., the flier expected to reach Whitehorse, Y.T., at 4 p.m.; Fairbanks, Alaska, at 8:40 p.m., and Nome at 1 a.m. to-morrow. The plane is equipped with wheels only.

Hoyt was very tired when he reached here, but expected to be able to make the long hop to Nome. He stated he did not expect to get any sleep until after his return to New York some time Sunday.

SATURDAY MAGAZINE  
FEATURES IN TIMES

The world's farthest north policeman, and one of the finest officers of the Canadian Mounted Police, is Inspector A. H. Joy, who has been in service twenty years and now has his headquarters within 800 miles of the Pole.

The story of this remarkable custodian of law and order for Canada is told in a special full-page illustrated article in the Magazine Section of The Victoria Times to-morrow.

Other features of the Saturday Magazine will be:  
Someone is to blame for each air crash, says "Safest" Flyer.

Recent geological and antique discoveries made in Sooke by Robert Connell, the noted Island naturalist.

A full illustrated page of women's fads, fancies and activities.

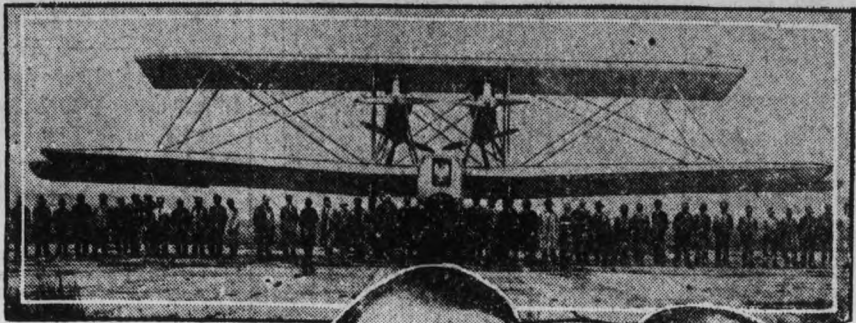

Advice to the bride regarding her culinary efforts.

A full page of week-end cables from across the Atlantic.

The usual illustrated Saturday children's page.

A page of comment and news on the books of the day.

And, of course, the four-page colored comic section.

MILAN - DUBLIN - CHICAGO FLIGHT  
PLANNED BY TWO POLISH PILOTSNEXT REGATTA  
AT BRENTWOOD

Oarsmen Decide to Stage 1930 N.P.A.A.O. Races Over Course in Saanich Arm

H. P. Hope New Association President; Nine New Trophies Donated

A decision to hold the 1930 N.P.A.A.O. regatta at Brentwood was made at the annual meeting of the North Pacific Association of Amateur Oarsmen officials in the James Bay Hotel this morning. H. P. Hope, head master of Brentwood College, was elected president.

Arthur H. Cox, secretary-treasurer, was re-elected to his position for the coming year.

Although the Vancouver Rowing Club officials had intended to request permission to hold next year's regatta over their course, they withdrew their bid when Brentwood asked for the meet. It was understood that Vancouver would be selected for the 1931 meet.

Air Engineer With  
Plane In Wilds Of  
Ontario Is Injured

Ottawa, July 19.—A report was received by civil aviation headquarters here this morning that Air Engineer W. Cook of the Western Canada Airways Limited had been slightly injured in an accident 100 miles north of Sioux Lookout, Ont.

CUT IN POWER  
RATES OPPOSED

Vancouver, July 19.—The B.C. Electric Railway Company is not prepared to meet the city's desire for a decrease in the light and power rates of old Point Grey and South Vancouver to the level prevailing within the boundaries of the city before amalgamation, according to a communication received by Corporation Counsel G. E. McCrossan, K.C., this morning from W. G. Murray, president of the B.C.E.R.

The letter was in reply to a formal request made to the company regarding the light and power rates for the light and power for all of the amalgamated area should be placed on the level of the tariff in the old city.

The company's reply states officials do not think a reduction is warranted in view of heavy capital commitments for the future.

Using the large biplane pictured above, the noted Polish aviators Kowalczyk (left) and Kite hope soon to make a flight from Milan, Italy, to Chicago, with only one stop en route, namely at Dublin. Nearly fifty persons grouped beneath the Polonia, as the plane is named, give a vivid impression of its tremendous wingspread. Of unusual design, the craft is the largest ever intended for a transoceanic flight. It is powered with two sets of tandem motors, and the upper wing is narrower than the main wing below.

BROMLEY IS FLYING  
PLANE TO TACOMA

Los Angeles, July 19.—Lieut. Harold Bromley, planning a non-stop biplane flight from Tacoma, Wash., to Tokyo, soared away on the first leg of his flight, Los Angeles to Tacoma, at 10:13 a.m. to-day.

The gleaming, orange-colored monoplane City of Tacoma got away on a beautiful take-off and soon disappeared over the foothills of the San Bernardino Valley. Bromley expected to reach Tacoma by 5:30 p.m.

The low-winged monoplane carried 483 gallons of gasoline at the start. Bromley took along a quart of water and sandwiches.

EXPERTS SATISFIED  
The take-off of the City of Tacoma was delayed several hours while minor adjustments were made to the motor and factory experts declared the ship in perfect condition. The plane is a Lockheed air express powered with a Wash motor.

Bromley was cool and confident as he stepped into the cockpit, a parachute strapped to his back.

"We'll make it, I believe," he said. "We've done everything carefully and the flight is well prepared. This test flight to Tacoma will prove the plane and motor."

NEW ORLEANS  
ROBBERS TAKE  
TRUCK AND CASH

Seven Bandits Overpower Guards and Drive Off With \$42,583 of Bank's Money

New Orleans, La., July 19.—Seven bandits here to-day held up the armored truck of the Hibernia Bank and Trust Company, threw the armed guards off and drove away with the truck, which carried \$42,583.90, according to the bank's report.

The armored car was making its morning round of collections from banks when an automobile carrying seven bandits held it up at Dryades and Julia Streets.

The two guards were pulled off and two bandits got aboard and drove the truck away while three other bandits drove behind, holding the guards at bay with revolvers.

Royal Minstrel  
Wins at Sandown

Sandown Park, Eng., July 19.—Royal Minstrel, formerly owned by Capt. J. P. Gough and now owned by G. H. Whitney of the United States, won the forty-second renewal of the Eclipse Stakes here to-day.

Lord Derby's Fairway was second and J. Farsky de Dad's Parwig was third. Eight ran.

Royal Minstrel, which was a 9-2 shot, won by four lengths.

REALTY BUYING  
MOVE CENTRES  
ON FORT STREET

Semi-business Properties From Douglas to Cook Quickly Taken Up

Buying Wave Seen as Anticipation of Building Developments There

Fort Street got into action this week and has staged something of a boom in the semi-business area east of Douglas, on anticipations that this area is to move into the higher business class.

Action started with the sale through C. E. Yearwood, manager of the business property department of Penber-ton and Son, of two 60 by 120-foot lots on the south side of Fort between Vancouver and Cook. These lots are vacant property and lie just east and adjoin Harry Leach's proposed market and store development project to take in the whole corner from Fort back to Mears along Vancouver. Both pieces of property were bought by California investors. One of these sixty-foot lots, the transaction records showed to-day, was bought by the present vendor only nine months ago, and the price at which he turned it over this week gives him a profit of 40 per cent.

Sixty feet of the vacant property on the north side of Fort Street just west of the old Cabin group of stores on the northwest corner of Blanshard, was acquired by a local investor for \$18,000. This sale also showed the vendor a profit of around 40 per cent over the price he paid about a year ago.

NEW HIGH PRICE  
Sale of the old Cabin store property itself was reported being completed to-day. The sale is being negotiated for \$29,000, which sets a new high record price for Fort Street property above Douglas Street. The property has a

Atlantic Aviators  
Return to New York  
Aboard Ss. Republic

Cherbourg, France, July 19.—The aeroplane Pathfinder, with Captain Lewis A. Vancey and Roger Q. Williams, United States transatlantic aviators aboard, arrived here from Le Bourget at 9:45 a.m. in preparation for the trip back to New York aboard the liner Republic, to be started to-night.

FLOODS IN INDIA  
KILL TWENTY

Hyderabad, Nizam's Dominions, British India, July 19.—Floods following torrential rains throughout Sind have taken twenty lives. Standing crops, such as cotton and rice, and houses on low lying lands have been greatly damaged. Cattle losses have been heavy.

ARMS EMBARGO  
LIFTED BY U.S.

Way Now Clear For Shipments to Mexico

Washington, July 19.—President Hoover to-day issued a proclamation lifting the embargo on shipment of arms and munitions to Mexico.

The embargo had been in force since January 7, 1924, when it was imposed by President Coolidge. The Mexican Government recently requested the lifting of the embargo, however, and the President's action to-day revoked the action of President Coolidge.

A statement by the State Department in connection with the embargo pointed out that the Mexican Government had recently successfully withstood another domestic insurrection and the conditions now in Mexico no longer required maintenance of the embargo.

Saanich - grown  
Berries Invade  
British Market

Thirty tons of Saanich strawberries will leave Victoria to-morrow for England, shipped by way of Panama, on the Furness Pacific liner Pacific Bellanca.

The consignment consists of 1,500 cases, each containing six one-gallon cans of berries, packed without sugar by the Holsum Packing Company Limited at the Lake Hill cannery. About six pounds of fruit are in each container. The solid pack is put up in solenoid cans and sterilized without addition of water or preservatives, this method resulting in a product retaining the original color of the fruit. The process was adapted by Harry Beach, manager of the Holsum Cannery, from a system successfully in operation in other canneries, and experimental shipments made last year were well received by the English market.

SERGT. J. H. REGAN

TO FACE TRIAL  
ON DRUG COUNT

H. G. Delamont Committed to Higher Court By Magistrate George Jay

Lifting of Grip at Wharf Revealed Opium, Says Customs Inspector

How the lifting of a black leather grip from the wharf to a small stool located a false bottom and revealed forty tons of opium to the gaze of a customs inspector was revealed in City Police Court this morning when Herbert George Delamont, ship's barber on the Empress of Russia, was arraigned on a charge of illegally having opium in his possession.

Delamont was committed for trial on the charge.

Accused made no effort to evade customs inspection of two grips which he carried, according to evidence adduced at the preliminary hearing of the case. Offhand, he declared they contained "only some toilet articles" and some "pans," and gave no objection to the search, according to Customs Examiner Duncan Bain.

When he was discovered in his alleged attempt to smuggle opium into the country, he became dejected and appealed to Customs Supervisor William Burnes to "save him for the sake of his wife and family," Mr. Burnes said. Later, however, when he was more composed he declared he had "been a fool and would take his medicine like a man," according to Customs Inspector E. V. McIntyre.

## VOLCANO IN ERUPTION

Sapporo Yezo, Japan, July 19.—The Volcano Komagatake began a new eruption to-day showering ashes over the nearby villages. The inhabitants prepared to withdraw.

Grain Prices Fall At  
Winnipeg And ChicagoBRITISH NOTE ON  
RELATIONS RECEIVED  
BY SOVIET LEADERS

Moscow, July 19.—Jan Rudzutak, Vice-president of the Council of Commissars of Soviet Russia, to-day stated the Labor Government of Great Britain had sent a communication to the Soviet Government offering re-establishment of normal diplomatic and trade relations upon certain conditions being met. The Russian Government had not yet formulated its reply.

Earth Shocks In  
Florence Region

Florence, Italy, July 19.—Florence was shaken by an earthquake at 10:02 p.m. yesterday. The shocks lasted about eight seconds and did some damage to walls and roofs in neighboring villages.

Roofs fell and crevasses appeared in walls in Borgo, San Lorenzo, Vicchio, Barberino and Fiesole.

Master-Gunner Collings and Sergt. J. H. Regan, of Victoria, will shoot in the final for the King's Prize at Bisley, England, to-morrow.

News that this city had the distinction of being represented by two of the ten Canadians in the final stage of the Empire's greatest annual individual rifle event came in the same dispatch as the information that Lieut.-Col. R. M. Blair, of Vancouver, had made a tie with two British marksmen for first place in the second stage, shot to-day.

The dispatch follows:  
Bisley Camp, Eng., July 19. (By Thomas T. Champion, Canadian Press Staff Correspondent)—With a score of 141 out of a possible 150, Lieut.-Col. R. M. Blair, of Vancouver, tied with two English marksmen for leadership in the second stage of the King's Prize here to-day.

Blair was listed to shoot off with Private T. W. Garnett of London, and Captain E. M. Ransford of the Suffolk Regiment for the National Rifle Association Silver Medal this afternoon.

EXCELLENT WORK  
Canada's shooting in the second stage of the King's Prize to-day was generally excellent, since ten out of fifteen Canadians qualified for the final to-morrow. The ten will compete with twenty other marksmen in the final, shooting at 800 and 1,000 yards, fifteen shots each distance.

The scores of to-day will be added to the final stage score to determine the winner.

The second stage to-day was at 800, 900 and 600 yards. Lieut. Desmond Burke, of Ottawa, with 140 was next to Lieut.-Col. Blair among the Canadians.

The Canadians in the final stage with to-day's aggregates are as follows: Lieut.-Colonel R. M. Blair, Vancouver, 141; Lieut. Desmond Burke, Ottawa, 140; Lieut. W. W. Houlden, Sherbrooke, 139; C.S.M. Lucas, Toronto, 138; Sgt. J. W. Sharpe, Montreal, 138; Captain Alex Martin, formerly of Calgary, 138; Master-Gunner Collings, Victoria, 137; C.S.M. Embley, Toronto, 136; Sgt. J. H. Regan, Victoria, 135; Sgt. H. Rush, Ottawa, 135.

The 300 marksmen, including fifteen Canadians, shot to-day under a hot sun, with barely a breath of air to stir the flags along the ranges.

Bisley Camp, Eng., July 19.—While all the results in the grand aggregate competition for the Dominion of Canada Challenge Trophy are not yet

LONDON SOLDIER  
WINS SILVER MEDAL  
TO-DAY AT BISLEY

Bisley Camp, Eng., July 19. (By Thomas T. Champion, Canadian Press Staff Correspondent)—Private T. W. Garnett, of London, for the National Rifle Association Silver Medal to-day by making the highest aggregate score in the second stage of the King's Prize. With Lieut.-Col. R. M. Blair, of Vancouver, and Captain E. M. Ransford of the Suffolk Regiment, Private Garnett was tied in the general shoot of the second stage this morning. The American won the three shot off and Garnett won.

## Winnipeg, July 19.—The Winnipeg wheat trip for the first time in several days failed to see prices invade new high territory to-day, slightly improved weather conditions throughout the wheat belt and forecasts of general rains throughout the prairie provinces during the next twenty-four hours having the effect of taming the market's bullish sentiments. After pursuing an erratic trend during the session, wheat closed 5 1/2 to 3 1/2 lower for the day.

## ON CHICAGO MARKET

Chicago, July 19.—A light rain falling in the Canadian northwest and in South Dakota weakened the grain markets to-day and with a full in buying, prices declined. Wheat had opened unchanged from yesterday's finish, 19 1/4 higher, but the current turned within the opening hour and at 10:30 o'clock wheat was 3 1/2 to 1 1/2 cents lower than Thursday's close. December delivery sold at \$1.50 1/2, September at \$1.44 1/2, and July at \$1.39 1/2.

Wheat sagged still further in the late trading and closed at the bottom for the day, 3 1/2 to 4 1/2 cents lower. July wheat finished at \$1.37 1/2, September at \$1.41 1/2 to 1 1/2, and December at \$1.46 to 1 1/2 a bushel.

Corn ended 3/4 to 1 cent down, with July at \$1.91, September \$1.92 1/2, and December at 97 to 97 1/2 cents.

**NEW RESIDENTIAL SECTION PLAN TO BE VOTED ON SOON**  
Vancouver, July 19.—A plebiscite in connection with the sale of the Haddon estate in West Vancouver, where the Burns of Calgary probably will be submitted to the West Vancouver ratepayers before the middle of August, according to John Lawson, former reeve of the municipality.  
A rough agreement for the transaction has been drafted, which is satisfactory to both Mr. Burns and the West Vancouver Council, and the settlement of exact terms for the proposed residential section is now a matter for agreement between the solicitors representing the two parties.  
Mr. Lawson states that if the proposed development scheme of Mr. Burns is carried out the results will be beneficial not only to West Vancouver, but to the whole of Canada, insofar as the property will be an attraction to keep wealthy Canadians in Canada.

**MUSICIAN NOW IN BEST TUNE FOR MANY YEARS**  
He Laughs at Former Troubles as Tells His Experience With Keeno  
Nothing in the World Like This New Herb Medicine to Make a Feel Fine All Over  
To use a musician's conception in describing poor health, E. Reynolds Nelson's nerves were all out of tune. He felt very badly, indeed, and under the circumstances it was quite impossible for him to take a full amount of interest in his work. And this is exactly the case with everybody else who does not feel well.  
Mr. Nelson is a professional musician who resides at 2118 41st Ave. West, Vancouver. How he was restored from a run-down condition to the very height of physical fitness by "Keeno" is best told in his own words.  
This man was also relieved of Stomach and Liver Trouble by Keeno.

**INSURANCE MEN VISIT VICTORIA**  
Side Trip From Convention Enjoyed By Northern Life Convention Delegates  
Ninety-five insurance men of the United States are throwing aside business cares to enjoy golf and sight-seeing in Victoria to-day. The party which registered at the Empress Hotel last night is comprised of delegates to the Northern Life Insurance convention in Seattle and the holiday in Victoria was planned as a welcome break in the programme.  
A full day of pleasure was planned for delegates. Most of them had their golf clubs with them to give the Victoria courses a trial and a variety of contests for convention honours were arranged to be decided here. Other parties were booked for sightseeing rides for morning, afternoon and evening.  
Visitors from many distant points in the United States continue to arrive for a short stay here and hotel workers are busy supplying information on fishing points on the Island. Another party of New Yorkers arrived to-day on an organized tour. Cars from Washington, California, Utah, Oregon, Virginia, Illinois and many other states indicate how many are arriving by automobile.  
A New Westminster party registered at the Empress to-day consisted of Senator J. D. Taylor, A. Hogg, T. D. Trapp, D. E. McKenzie and J. W. Berry, M.P.  
Montrealers here are Mr. and Mrs. C. Spur Harding and Miss R. B. Harding.

**Miller, Court Open New Vancouver Board Room**  
The spacious board rooms of Miller, Court & Company Limited on the ground floor of the new stock exchange building, situated in the heart of Vancouver's financial district, is shown in the picture. The offices, colorful with floral tributes from business associates and clients, were opened Monday, and are among the most modern and complete on the continent. The big board carries current quotations from Montreal and Toronto Standard Exchanges, Montreal and Toronto curb, Vancouver, Seattle and Calgary, with the local "ticker" running across the busy scene. The entire Miller, Court organization is now in the new building, which was erected by the firm, starting the wave of building which has since swept across the business district.

**HERE'S HOW TO WATER GARDEN IN HOT WEATHER**  
WATER alone is not enough to make a good lawn. Water is needed, of course, but the lawn is sure to become burned and turn brown at this season unless it has been fortified with an abundance of plant food. That the success of a lawn depends largely upon the way in which it is fed is becoming increasingly evident.  
Whenever a lawn is made it should have two or three inches of good loam with which thoroughly decayed stable manure or some other fertilizer has been mixed. It is not necessary to have a very deep feeding ground, because most of the roots are in the upper two inches. Something depends upon the kind of grass used, to be sure, but blue grass and similar kinds do not penetrate very deeply. That is one reason why the soil in which the roots work must be rich.  
After a lawn has once been established it can be kept in good condition by feeding with a good fertilizer two or three times a season. Bone meal is helpful in the spring, but it is slow acting and will need to be reinforced with nitrogenous fertilizers like floridan or sulphate of ammonia. These fertilizers are better than nitrate of soda.  
If fertilizer was used in the spring it can be omitted now, but if the lawn is behaving badly, it may be necessary to apply a little fertilizer at this season to keep it going. The fertilizer must be used with great caution, however, and in much smaller amounts than in the spring, for otherwise it will burn the grass. It is very important, too, that it be thoroughly washed in with the hose unless it is put on just before a rain storm.  
MUCH LAWN OCCASIONALLY  
A safe way to apply fertilizer now is to use one of the devices which can be attached to the hose and by means of which fertilizer is mingled with the water and distributed evenly in such quantities that there is no danger of burning.  
A new lawn and one which is inclined to turn brown can also be helped at this season by putting on a copious application of peat moss, perhaps an inch all over the surface. The peat moss must be thoroughly pulverized, of course, and must be spread evenly. Too much of it in one spot will make the grass turn brown, but a fine, thin coating will help to hold the moisture as well as keep the ground cool.  
It is almost indispensable where water cannot be obtained in abundance, but it is good for lawns everywhere. Of course, it will rob the lawn of its green appearance for a short time, but if worked over with the rake and exposed to a rain it will soon disappear into the grass. By following practices like that described a good lawn can be kept all summer, and the use of water should not be discarded, however. Water used freely will keep a lawn in good condition if it has anything like a respectable feeding ground, and a good lawn will always be made better by the use of water, always provided that enough is given to thoroughly saturate the ground and reach the roots. Nothing but harm is done by sprinkling the surface, because this practice tends to dry the roots to the surface, where they will be scorched by the sun.  
WATER ROSES IN MORNING  
The best way to water a lawn is to use one of several sprinkling devices which throws the water in a wide radius, distributing it evenly and to keep it going over a long period. The next best plan is to lay the hose on the ground, moving it occasionally from one spot to another. The suburbanite throwing water her and there accomplishes nothing except to establish a feeling that he is playing gardener.  
Undoubtedly the best time to water a lawn is in the evening, because there is less evaporation at that time and therefore less waste of water. This holds good for the garden in general, although there is no reason why the vegetables and many of the flowers should not be watered at any time during the day, except that there is a certain amount of waste resulting from evaporation when the weather is hot. Some flowers are damaged if water falls upon them while the sun is shining, but almost all plants respond to an application of water on the foliage as well as around the roots. The water tends to wash off dust and adds to the vigor of the plants.  
It is particularly important to water roses before the approach of nightfall, because if the foliage goes into the night wet it is almost certain to be-  
come mildewed, except in the case of certain immune varieties. If watering must be done at night a hose should be laid on the ground and the water allowed to run around the roots, but not to touch the leaves. Even this, however, creates a moist condition which has a tendency to invite mildew. Mildew may come, indeed, when the practice is followed of watering in the morning, because dew and rains cannot be controlled. For that reason it is wise to keep up an application of the Massey dust throughout the season; as has been explained before, this is simply a combination of nine parts of powdered sulphur and one part of powdered arsenate of lead, mixed together and dusted over the plants with a dusting gun or a cheese cloth bag on a stick. There are some prepared sprays on the market which are about as cheap, but the Massey dust is easily obtained and should be used regardless of watering practices.  
COLD WATER CHECKS GROWTH  
Undoubtedly cold water has a tendency to check the growth of plants, and that is one reason why a sprinkling device is helpful. Most sprinklers throw the water into the air where it is warmed somewhat before it reaches the ground. In any case it does not flow on the plants in a heavy cold stream. The fact that the temperature of the water has an appreciable effect on plants is shown by the methods of some peony growers who want very early flowers for the early spring trade. They have found that by applying hot water to the plants for a week or two they can obtain blossoms several days ahead of those from plants which receive only cold water.  
The garden hose is a very useful article. Not only is it available for carrying water from one part of the garden to another, but it can be used also to get rid of plant lice on trees, shrubs and some perennials. A strong stream of water from the hose directed against the under part of the leaves covered with plant lice will wash them off almost immediately. There is no reason for spraying shrubs and trees or strong perennials to get rid of lice when a hose is available.  
Weeds often interfere with the appearance of a lawn, although inefficient encouragement is given the grass. The best way therefore, to have a clean lawn is to feed it well. Sulphate of ammonia, which has been mentioned as a fertilizer, has a tendency to kill out weeds, and is especially recommended for bent grass lawns.  
It may be wise, therefore, to depend upon bent grasses for lawns in sections where weeds are uncommonly prevalent. A little is accomplished by cleaning the weeds from one's own lawn because seed is constantly blown in from the premises of a less careful gardener. Sulphate of ammonia mixed with an ordinary complete fertilizer is good for blue grass lawns and helps to discourage weeds.  
Sometimes dandelions are so bad that extra effort must be made to get rid of them. Digging them out is effective, as it is always difficult to get out the roots, but what remains can be killed by applying a little salt or gasoline into the crown by means of a long oil can. If the lawn is a large one, iron sulphate, which can be obtained at all drug stores may be used. A solution is prepared by dissolving two pounds of this solution in a gallon of water. One gallon is sufficient for spraying 850 square feet.  
Even common salt is reasonably successful, two and a half pounds being dissolved in a gallon of water and sprayed over the lawn. Perhaps attention should be called to the fact that iron sulphate should be used carefully, as it will stain any cement walk upon which it happens to fall. Plantain, which sometimes gets established in lawns, spreads very rapidly unless checked. It is said that it can be killed out by digging a sharp hardwood stick into sulphuric acid and thrusting the stick into the centre of each plant. The roots die almost at once. Iron sulphate will also kill plantain in the form of crystals (in fact it is sometimes known as copperas crystals), and may even be sprinkled on if there is no means of spraying. A pound can be dissolved in one and a half gallons of water. The grass on which the chemical falls will be burned, but will soon be restored to good condition. At this season the grass should not be cut as closely as in spring and now.

**Major Stuart Appointed to Ottawa Post**  
Major Kenneth Stuart, district engineer at Work Point Barracks, has received word of his appointment as Assistant Director of Military Intelligence, National Defence Headquarters, Ottawa, and expects to leave early in September for his new position in the east. Major Stuart came to Victoria from England a year and a half ago.  
**TWO YEARS FOR SHARE IN THEFT**  
Frank Wilson, charged with Possession of Stolen Goods, Is Sentenced  
Frank Wilson, convicted of unlawful possession of stolen rings, was sentenced to two years imprisonment, to date from July 16, by Judge S. Lampan in the County (Criminal) Court to-day.  
You have a bad record, and I will have to give you a fairly stiff sentence for that reason," remarked the court in passing sentence.  
Wilson, alias Nelson, was convicted at his trial earlier in the week, and remained for sentence until to-day. He is already serving a jail term of another sentence, it was stated. W. H. Bullock-Webster appeared for the accused at the proceedings.  
The proceedings followed a burglary reported at the home of Mrs. Fitzgibbon, who identified five of the six rings found in a store in quarters occupied by the accused. The sixth ring is held by the court pending identification by its owner.

**Four Schools Expected to Consolidate**  
A plan to abolish four rural schools and substitute one central school to serve Cobble Hill, Sylvania, the Bench and Mill Bay has come to a head after being approved at the annual meetings of the school districts.  
Arrangements have now been made for a joint meeting this week of the trustees of the four schools with a representative of the Department of Education. One of the most important questions will be decision of the location for the proposed consolidated school.  
Details of the plan have yet to be worked out and costs and various other matters gone into before the final move to embark on the undertaking comes up for decision. Despite opposition to the scheme, the meeting of the boards is expected to produce some definite results.

**Annuity Presented To T. P. O'Connor**  
London, July 19.—T. P. O'Connor, "Father of the House of Commons," was presented yesterday with a handsome surprise in the form of a trust deed providing him with an annuity as a mark of recognition for his long public and political service.  
The veteran Irish parliamentarian, whose health is greatly impaired, received the gift sitting in a chair on the terrace of Parliament.  
In a speech of acknowledgment, which was barely audible, he said the gift had come as a surprise, and almost as a shock, but he had yet to meet an Irishman who would refuse money.  
Dripping Pitcher  
If you rub the inside of the spout of your cream pitcher with butter, it will prevent the cream's dripping after pouring.

**BUS FARES TO INCREASE IN SAANICH**  
Council Tentatively Approves Higher Charges and Changes in Service  
Short Routes Lost Money Last Year, Tabulations Prove  
Increases in fares on most of the bus routes in Saanich, elimination of a number of poorly patronized extensions and reduction of service at slack traffic hours on some routes will likely be put into effect shortly. Changes were tentatively approved by the Saanich Council last night at a special meeting when a detailed statement of the cost of operation and revenue earned by the Saanich routes, prepared by the Vancouver Island Coach Lines Limited and checked as to costs by the Saanich auditors was presented.  
This statement showed that all the short lines compiled deficits during the first year of operation, this ranging from about \$9 daily on the Lake Hill route to around \$30 daily for services to less populated districts.  
Each councillor was supplied with a copy of tabulations upon which the application for revision of rates and fares was based, and a letter to Reeve Crouch gave further details as to the contracts in service which are desired by the transportation company.  
**LITTLE DISCUSSION**  
The proceedings were notable for the lack of discussion, members of the council appearing to be unanimous that concessions were warranted by the circumstances.  
Councillor Paterson remarked that the figures submitted by the Coach Lines, covering the six winter and spring months, showed the poorest earning season, the only other criticism being voiced by Councillor Hagan, who failed to understand how a daily loss of \$9 could be shown for the Lake Hill bus line, which had been able to write off the cost of equipment and show a profit from smaller earnings when under municipal control.  
The meeting last night was preliminary to a meeting next week with the officers of the Coach Lines Limited, when final rates and changes in service will be struck.  
When the councillors were discussing the fares to be charged on the Gorge route, Councillor Eden remarked that "bad weather" the buses were crowded and the Saanich residents paying the higher fares, had to stand while the five cent city fares held the seats. Councillor Watson asserted "it is the same old story, if you want a service you have got to pay for it." Councillor Hagan referred to the growing competition of private cars, which was increasing at the time at the expense of the earnings of the public conveniences. Councillor Borden said that if rates were raised unduly the public would "get sore," and car owners would practice "bickering" over their friends.  
The following changes in fares, routes and operating conditions were tentatively approved last night by the council:  
**GORGE ROUTE**  
To Harriet Road, now six fares for 25 cents, to be six for 35 cents; to Tillicum, now six for 35 cents, to be four for 25 cents; to terminus at (Mildred's) Road, now twelve for \$1.00 to be four for 30 cents; the Ruxton-Craigflower Bridge to be abolished.  
**BURNSIDE-WILKINSON**  
To Tillicum Road, now 6 cents, to be four for 25 cents; to Marigold, now 10 cents, to be cut to four for 30 cents at the instance of the council; loop line serving Holland, now 10 cents, and Wellington, now two for 25 cents, to be combined at 10 cents; non-paying services to Glynn and Miller Avenue to be eliminated, Reeve Crouch remarking that it would be cheaper to have patrons call a taxi at the expense of the Coach Lines.  
**AGNES-MARIGOLD**  
To Audley, now 5 cents, to be six for 35 cents; to Regina, now 6 cents, unchanged; to Cadillac, nor 7 cents, unchanged; to Carey and Glenford, to be 8 cents, and to run to Marigold at same rate, cutting out run on Ralph Street; revision of schedule to forty minutes, with a twenty-minute service in rush hours to Agnes and Ralph, not Warren.

## PROHIBITION ACT IS UPHELD ON VOTE IN P.E.I.

People Decide Against Change to Government Control System

Charlottetown, P.E.I., July 19.—The prohibition act of Prince Edward Island was decisively endorsed at the plebiscite held yesterday. The balloting was characterized by a general lack of interest. All of the returns had not been compiled to-day, but prohibition was conceded a large majority.

Approximately 17,000 electors cast their ballots, about fifty per cent. of the vote polled in the provincial general election of 1927, when the Conservative Government led by Premier J. D. Stewart went to the country with a policy of government control of the sale of liquor, only to be overwhelmingly defeated by the Liberal Party led by A. C. Saunders, now Premier, who promised enforcement of the prohibition act and a plebiscite in 1929.

**CAPITAL'S VOTE**  
The voting in Charlottetown and its vicinity resulted in a majority of 218 for Government control, the totals being 1,417 to 1,199. Only one-third of the electorate here went to the polls and the women's vote predominated in a number of instances.

Prohibition majorities in all three counties, King's, Queen's and Prince, were reported.

The two questions submitted to the electors were:

1.—Are you in favor of the prohibition act as now the law in this province?

2.—Are you in favor of the sale of alcoholic liquors under a Government control act?

**NOVA SCOTIA TO VOTE**  
The result of the plebiscite was awaited with particular interest in Nova Scotia, the only other province of Canada not operating a system of Government control. A similar plebiscite will be held in Nova Scotia this year.

**CREW OF TEN MEN HELD IN CUSTODY**

Atlantic City, N.J., July 19.—A Diesel motorboat with a cargo of liquor aboard valued at \$100,000, was seized yesterday by Special Federal Officer Luther Stierner and coast-guardsmen.

The captain and nine men were arrested and brought here. The officers said the cargo had been picked up on the high seas and both the manifest and log of the vessel had been destroyed.

The boat was said to have cleared from Halifax several days ago. The bulk of the 1,000 cases found on board were said to have contained choice champagne and high priced liquors. The boat is valued at \$30,000.

**Home Visitors' Rail Rates Are Advocated**

Winnipeg, July 19.—A request by boards of trade representatives from Manitoba and Saskatchewan that "home visitors' excursion" rates be allowed in December and January to easterners wishing to visit the west, as well as to residents of the west desiring to visit the east at Christmas time, was made to the Board of Railway Commissioners here yesterday. Dr. S. J. McLean, assistant chief commissioner, stated decision would be reserved as a principle was involved.

Solicitors for the railways opposed the application on the ground that the privileges to those resident in the east were justified, while there was no real incentive to introduce the benefits to the west.

Those making the application argued the privilege would mean much to students from the west attending universities. This led Dr. McLean to remark upon the high standards of the universities of the west.

**Seattle Fire Victim Is Fighting For Life**

Seattle, July 19.—His lungs badly burned in Seattle's million-dollar waterfront fire late Wednesday, Frank Buck, fire department inspector, is being kept alive only with oxygen. Whether he will recover may not be known for several days, according to Dr. Frank T. Maxson.

In the same hospital with Buck is fireman Joseph McNamee, who, it is thought, will recover sufficiently within three days to return to his home. Six other firemen and a dock worker who suffered minor injuries are recuperating at their homes.

## VANCOUVER ISLAND NEWS

### Duncan

Mr. and Mrs. Bateman Hope of Quamichan Lake left on Sunday for a four months' trip to the Old Country.

Dr. G. W. Bisset and wife have returned to Duncan after a motor trip to Portland.

W. Clarke of Tacoma and Dr. C. A. Clarke of Seattle, with their families, visited Duncan last week.

Miss E. L. Dickie of the Royal Columbian Hospital, New Westminster, is acting lady superintendent at the King's Daughters' Hospital, during the absence of Miss C. E. Jackson, who is attending the nurses' convention in Montreal.

H. B. Hayward, Government Liquor Manager, is taking his annual vacation.

Mr. and Mrs. Lewis Kler of Greenwood, are spending part of their honeymoon with Mr. and Mrs. D. Miles, Mayo. Mrs. Kler was formerly Olive Haw and was in training at the King's Daughters' Hospital, Duncan.

Dr. and Mrs. Charles Green, Miss Caroline Green of Innisfail, Alta., and Miss Edith Green, R.N. of Portland, Ore., are spending a few days with Mr. and Mrs. John Weismiller.

## EXECUTION AT HAILEYBURY, ONT.

Haileybury, Ont., July 19.—A few minutes after midnight John Ivanchuk, convicted of murder, was taken from his cell in the district jail here and executed by hanging.

The crime for which Ivanchuk paid the supreme penalty was committed October 15, 1923, when Inspector Harry Constable of the Ontario Provincial Police, who had been active in

prohibition enforcement, was shot to death near his home at Cochrane, Ont. Ivanchuk, said to have been engaged in the illicit liquor trade, was not arrested and charged with the murder until November, 1928.

Ivanchuk was convicted at Cochrane on April 11 last and sentenced by Mr. Justice Wright to be hanged June 20.

He was granted a reprieve of one month to enable his counsel to submit to the Ontario Appeal Court new evidence on which a new trial was requested.

He sought unsuccessfully to establish an alibi by testifying he had spent the evening of the murder in the Queen's Hotel, the Empire Cafe and the theatre at Cochrane.

## PLANE PASSENGERS RESCUED

Shoal Lake, Man., July 19.—Prompt action of Pilot McCarty when his plane crashed on the Shoal Lake golf course yesterday saved two women passengers from being seriously injured.

Falling to gain altitude on an attempted take-off, the plane struck a fence and crashed on the ground. McCarty immediately sprang from his seat and freed his two passengers, Mrs. Thomas Rogers and Mrs. Pearl Hearst, both of this town.

A few minutes later an explosion occurred and the machine burst into flames, and within a few minutes it was completely destroyed.

Mr. and Mrs. Lewis Kler of Greenwood, are spending part of their honeymoon with Mr. and Mrs. D. Miles, Mayo. Mrs. Kler was formerly Olive Haw and was in training at the King's Daughters' Hospital, Duncan.

## Your Baby and Mine

By MYRTLE MEYER, ELDER

CHILD NOT INTENDED AS  
TOY FOR PARENTS

When the first baby comes into a household, it is no more than natural that just to see him open his mouth and cry lustily, just to watch him clench his fists or grasp an offered finger and hang on for dear life is entertainment for his parents. But such side-line activities soon grow stale and parents can hardly wait until baby can play with them.

The mentally alert child begins to show an appreciation for the sound of his mother's voice, for Daddy's whistle and step very soon, and the sight of his excited waving of arms and legs will be sufficient to make father turn handsprings in order to amuse him. We wouldn't for one moment deprive either parent or baby of all this delightful intimacy but there are limits and those are reached when baby is kept up long past his bedtime because that is the only time of day Daddy has to play with him; or Grandpa comes over in the evening and wants to see the baby; or Aunt Ellen arrives every Sunday and so baby's Sunday routine is shattered in order that she may feed him and play with him as she pleases. Of course, baby enjoys it for it is all too easy to excite a child and elicit constant smiles and agitated movements, but such excitement preceding his bedtime has an inevitably bad effect.

Mother knows this, because she has to care for the baby. After father's hour of pleasure, he is none too willing to go in the night and hush the baby to sleep when he awakens half a dozen times. Then the baby is "Mama's baby" and father rolls over and protects his ear drums from the spitting words. Suppose Monday is a blue day for mother, getting baby back to the routine that Auntie's ministrations have shattered; Auntie isn't bothered by it, and if Mother has the temerity to tell her that, she is mortally offended. Of course, if Mother doesn't want her to come over on Sunday anymore, she will go where she is more welcome, and more in the same strain. So Mother, the usual mother, says nothing. She mentally anguishes as baby's squeals fill the room, knowing that she is going to have to pay for this excited cry. She hates to put baby to bed before father comes home, knowing that he is looking forward to this playtime from night to night.

How much right has any adult to take his amusement at the expense of the baby? It is harmful to him—every one except the blindest person is forced to admit that. The time to play with baby is during his wakeful periods during the day, or the early morning when he is bright and wide-awake and all too eager to play. One-half hour then won't hurt him and it were better for father to lose a half hour of his beauty sleep in the morning than for him to deprive baby of his sleep (not to mention the mother's sleep) in the middle of the night, all because baby can't sleep after an excitable bedtime romp.

## On Lazy Summer Days Just Take a Meat Loaf!

By SISTER MARY

Meat loaves of various sorts fill an important place on the summer diet. They are good both hot or cold and are as suitable for an impromptu picnic as the home luncheon.

Usually a meat loaf is sufficient for at least two meals. This means that one cooking process takes care of more than one day's food. As the meat is concerned, simplifying housekeeping to an appreciable degree.

The addition of bread or cracker crumbs makes for economy as well as reducing the protein content of the dish. In hot weather a diet comparatively low in protein is desirable. A balanced diet must be maintained; a healthy but less protein is required in warm weather than is needed for cold days.

Combinations of meats offer variety. A loaf made of beef, veal and pork is of quite different flavor than one made entirely of veal or beef.

The secret of perfection in meat loaves lies in thorough blending of all ingredients. Careful seasoning is essential. Keep in mind the rule of one teaspoon salt to a pound of meat and gauge the amounts accordingly. Always trim meat carefully being sure that gristle and stringy connecting tissue is discarded.

The accompanying recipe for ham loaf is delicious and offers a welcome change.

### Ham Loaf

One and one-half pounds fresh ham, 1½ pounds cured ham, 2 eggs, 1 cup fine cracker crumbs, water to moisten. Grind meat very fine and mix thoroughly. Add crumbs and mix until perfectly blended. Add eggs well beaten and mix well. Add water to make moist enough to shape in a loaf. Bake in a roaster in a moderate oven for two hours.

Serve hot with spinach timbales and Hollandaise sauce or cold with vegetable salad.

### WASTE PAPER AND OLD FURNITURE RECLAIM BROKEN MANHOOD

On a fine spring morning in New York City some thirty years ago, an officer sent out into the streets to the first push-cart with instructions to the two men who supplied the motive power, to get a load of waste paper. That moment was an idea born which was to have far-reaching results. For that push-cart was the progenitor of a system, now established in a hundred cities, which provides the means of restoration for the man who has fallen from his proper place in the community.

Calling for waste paper, the collectors were often asked if they could take other household cast-offs, and gradually the idea was extended until today a Salvation Army industrial institution extends its beneficent work of rehabilitation to almost every article made for man's or woman's use. I saw a shelf full of old collapsible opera hats the other day. The cloth of them is turned to good use. The book shelves are filled with old volumes—and sometimes we have a real find.

The Salvation Army has to-day, in the United States, 106 of these salvage institutions where no man applies in vain for a chance to prove his worth, with accommodation for 5,318 men. During the last statistical year, 25,411 men passed through these havens of renewal.—Lieut.-Col. Charles C. White in Thrift Magazine.

Dollar Day .....\$3.95  
—Main Floor, HBC

## Paris Openings Show Styles For Autumn

Paris, July 19.—The recent press opening of Mary Sandalari's models is unique in Paris fashion history. Twenty-seven models of shoes were shown in the garden court in front of the modernistic building that houses the firm of Sandalari, of which this young American girl is dressmaker and designer.

These models were presented by a flock of mannequins wearing gown creations by Elsieph Champomponal with modish and suitable hats and accessories. With tailored costumes the mannequins sported the latest Sandalari morning and afternoon shoes with matching bag and belt. With evening frocks they displayed shoes and bags of most exquisite construction. In some cases partly made of century-old bits of French and Chinese silks combined with gold and silver and studded with pearls. The gowns and pyjama lounge gowns, the sack-backs and the evening gowns.

For formal attire, Sandalari has a shoe of royal blue tulle, the Chinese with side and toe trimmings and ankle strap of soft black suede with black and nickel buckle on one side.

The new Rodier materials, just viewed, are pleasantly informative as to what we may expect in the coming August openings of autumn and winter fashions. They are, of course, already in the hands of the Paris dress designers. Judging from orders, Granya will be largely presented in outer garments. Granya is a light but warm, all-wool fabric with irregular weave that suggests a pebbled surface. Though it is mostly in one tone, there is sometimes an introduction of a lighter shade.

Burraspor is a slightly informal, loosely woven English tweed which includes yarns of dashing colors. A more sportive coat fabric is Flammy-color in a diagonal weave, sometimes with white flecks on the surface and a neutral colored ground mixed with such brilliant colors as copper and apricot.

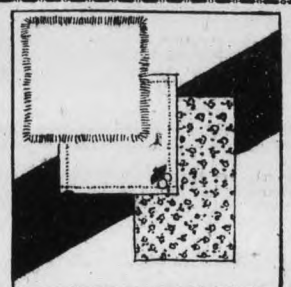

A more formal coating, indicated for town use, is Nelelo, which includes a little silk. Kasha Mouffie is a plain wool with a furry surface. For autumn tailored suits there is Drapellabure in a coarse weave that suggests linen in a mixed tones of beige and grey. Wool plaids have been largely ordered for cape and coat linings and decorations, a motor coat by Anart is of the last-named material with a collar of sable-dyed squirrel. Pockets are put on in a zig-zag manner, the same stitched patterns being applied on the Raglan sleeves. The back has long stitched straps with top points interjoining, a nice craft touch.

Patou has made up one of the advanced wool fabrics in a tailored costume for Mme. Corning Griffith Morosco. This is of a royal blue wool, slightly flecked with white. The plaited skirt shows the return to the straight line; the short coat, broad over the shoulders, buttons low and close. The white shirt blouse has small plaits in the sides of the front, a pointed decollete edged with blue and a cut-under fall of blue with an art ornament.

The wool color chart of the coming season shows the following: There are three shades of beige, gray, rose and chocolate. In greys there are a light, a dark and a blue tone. Four shades of red may be classified as rose-red, orange-red, scarlet-red and purple-red. Brown lead to soft chocolate and the bright seal tone. There are several tints from mauve to purple, and in blue, periwinkle, royal blue and a tone brighter than navy blue.

## NANCY PAGE

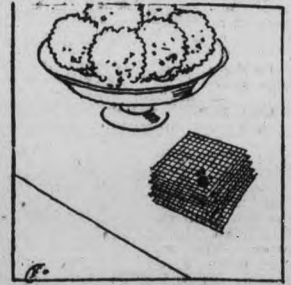

TINY REFRESHMENT NAPKINS ARE OF MANY MATERIALS  
By Florence La Gank

Nancy wrote home to her family that she was having a glorious vacation seeing many old friends, making new ones and gathering ideas for all sorts of things. "Just wait until I get home and show you my collection of little refreshment napkins. They are as gay and as sunny as this Southern land."

Her first little napkin, which was about seven inches square, was made of cotton crepe in yellow. She had fringed the four sides, stitched along the edge of material to keep fringing from going in farther. In this set she had six different colors, all pastel shades of cotton crepe.

Her second one was of white handkerchief linen with a little corner applique of fruit, two cherries with tiny red leaves. These napkins were finished with a hand-hemstitched edge.

The third napkin was five by eight inches with hand-rolled hem. It was made of the popular printed handkerchief linen. The design was a small pattern in red and white and used no trimming. These, as she said, could be made up in any color scheme.

Some checked napkins in the finest quality was made into five inch squares with a small applique in each corner. These were just the thing for guests' use when pouring the iced drinks. Nancy suggested making these of patina dotted English print in white with red dots. A large cloth might be made to go with the napkins. In the very centre of the cloth a large, applique flower or fruit could be appliqued and "there you are," said she, "with a picnic cloth de luxe."

These little napkins are nice to use when a beverage is being served. Write to Nancy Page, care of this paper, enclosing a stamped, self-addressed envelope, asking for her "Beverage" leaflet.

## GARDEN PARTY LAST FUNCTION OF BIG SEASON

Reuter's Special to The Victoria Times  
London, July 19.—Plans are being advanced for the royal garden party on July 25, almost the last big function of the London season.

Only one party will be held this year in the delightful gardens of Buckingham Palace, and the invitations will be strictly limited. The Queen will travel specially from Sandringham to join the Prince of Wales and other members of the Royal Family, who will mingle with the guests.

## WOMAN EXPLORER WRITES OF CURIOUS NATIVE CUSTOMS

"Monkey Meat Is a Poor Substitute For a Human Fillet," Natives Say

African "Dentist" Is Weird Customer and Five Men Hold Down the Patients

Johannesburg, South Africa, July 19. Mrs. T. A. Glover, who with her husband is continuing her work of exploration in equatorial Africa, writes to the local press of a journey thirty days up the Logone River through a country where "people tell us monkey meat is poor substitute for a human fillet nicely grilled and steaming hot."

Mrs. Glover mentions some curious customs of the natives. "These people file their teeth into points. We watched a medicine man carry out these rites and a visit to a dentist is heaven in comparison."

"Having obtained a stone, a heavy stick and a piece of iron as his only equipment, he called five husky natives to hold a small shrieking victim, perhaps nine years of age. Opening his mouth he took the piece of iron and placing it on the tooth and hitting it with a stone until a piece was chipped off."

"In thirty days," says Mrs. Glover, "leopards carried off ten children, but no attempt was made to kill them, because the natives were convinced they were men of neighboring tribes who were capable of transforming themselves at will into wild animals, and it was useless to hunt them."

## CIVIC SERVICES PICNIC SATURDAY

Upwards of 400 Employees and Families to Have All-day Outing at Goldstream

The City Hall will be closed tomorrow on the occasion of the annual all-day outing of the Civic Services which will take the form of a picnic at Goldstream Flats. A special half-holiday has been granted to free all employees in the forenoon, so that a full day will be at the disposal of the holiday-makers.

Buses will leave the City Hall from 9 to 10:30 o'clock in the morning, and will return again, leaving the site of the picnic grounds at 7 o'clock in the evening.

Upwards of 400 civic employees and their families will take part in the outing. Mayor Herbert Anson and the aldermen have accepted invitations to be present.

## This City Now Owns Movie And College And Much Property

Menominee, Mich., July 19.—Without a city hall or public building other than fire stations and a library for nearly fifty years, Menominee of a sudden has more property than it knows what to do with. The unexpected it has more than \$1,000,000 worth of buildings and finds itself the owner and operator of a theatre and in possession of a college.

For less than \$2,000 it acquired the Menominee Opera House, built in 1902 at a cost of \$75,000. The theatre, which for years claimed the distinction of the best equipped and largest stage north of Chicago, is in good condition, but since the erection of the Lloyd Theatre about two years ago has been in disuse except for an occasional road show. C. I. Cook, owner of the building and of considerable other property in the city and county, is closing out his holdings.

Mr. Cook's agent offered to sell the theatre for \$1,200 and back taxes of \$719. The city accepted the offer, with the idea that the Opera House may be converted into a city hall. Meanwhile, the city is operating the show house and has booked a stock company for two weeks on a percentage basis. With the mayor, aldermen and other city officials boosting the show they expect to clean up the purchase price in the two weeks. They also intend showing movies, the theatre having complete motion picture equipment.

When Gov. Green recently slashed the entire appropriation for the Upper Peninsula College from the 1929 budget, he put an end to operation of the school and virtually presented Menominee with the property, appraised in excess of \$175,000.

The college was originally a county agricultural school and was taken over by the state six years ago. Without an appropriation for its maintenance the college trustees canceled all the teachers' newly made contracts and closed the institution, while the county board is offering the school's pure bred herds, other livestock and farm implements for sale at auction.

The land on which the college building stands, originally a city park, was given to the county in 1907. A clause in the deed provided that when it ceased to be used for agricultural school purposes the property would revert to the city. The city came into possession of the building and 120 acres of land on July 1. What to do with it is puzzling Mayor Edward Danahy and the aldermen. With the operation of a theatre on their hands they feel they have neither the time nor the training to run the school.

### Quick Supper

Creamed sardines and hard-boiled eggs make a tasty and easily prepared supper dish. Either serve the mixture to toast or put in a baking dish and brown the top in the broiling oven.

### Creaking Hinges

Rub creaking hinges with a piece of soap to eliminate the noise. Oil might spoil the paint.

### Wooden Dishpan

If little sister or your maid chips dishes when washing them, try using a big wooden chopping bowl instead of a metal dishpan.

## Personal Items

Mrs. J. A. Fullerton of Ash Street is visiting friends in Winnipeg.

Miss Mariatt, Savoy Apartments, has left for Vancouver to spend several weeks there as the guest of friends.

Miss K. Bland, of Reading, Penn., is visiting in Victoria and is a guest at The Angela.

Mr. and Mrs. C. E. Wilson, The Uplands, and Mr. and Mrs. A. J. Watson, Newport Avenue, left this morning for Comox to spend the week-end there as guests at Elk Lodge.

Mr. and Mrs. Noel Collison, nee Coburn, have returned from a motor trip on the Mainland and are resident in their new home on St. Patrick Street, Oak Bay.

Colonel and Mrs. A. Sharland, Miss Vera Sharland and Masters Philip and Timothy Sharland, The Angela, will spend the week-end at Shawnigan Lake.

Miss Frances I. M. Cottet, nurse in training at General Hospital, Hoquiam, Wash., is visiting her parents, Mr. and Mrs. Martin Cottet, 1938 Bouchier Avenue.

Dr. and Mrs. John McCaw of Denver, Colo., are spending a few days in Victoria as guests at the Empress Hotel. Mrs. McCaw will leave shortly for Calgary to spend a month there.

Mrs. G. E. Walls entertained a few friends at the tea hour this afternoon at her home on Patio Court, Oak Bay. Mrs. Walls will leave shortly for Calgary to spend a month there.

Mrs. D. M. Eberts, who has been visiting at the B.C. with Mr. and Mrs. E. M. Adams, has returned to Victoria, and is now the guest of her daughter, Mrs. Prescott Cookingham, San Carlos Avenue.

A reception was held last night at the home of Mrs. C. F. Cox, Crescent Road, by the congregation of St. Mathias' Church in honor of Rev. A. P. Munson and Mrs. Munson on their return from their wedding trip.

Guests registered at the Cadboro Beach hotel include Mr. and Mrs. Bert P. Lacey, Spokane, Wash.; G. W. Tyson, Calgary; Miss M. Chisholm, Victoria, and Dr. and Mrs. R. M. Parker, Portland, Ore.

Mr. Leonard Neff of Shawnigan Lake was a visitor in Victoria today having come down to attend the wedding of his sister, Miss M. L. Neff and Mr. J. R. McCann which took place this morning.

Mr. and Mrs. A. H. Maroon of Watrous, Sask., formerly of this city, who have been spending a few days in Victoria, left yesterday for Up-sal-land points, and will leave for the Mainland on Friday. They motored from the Prairie town, where Mr. Maroon is manager of the Canadian Bank of Commerce there, and en route spent a week at Banff, and a few days days with relatives in Vancouver.

Mrs. F. Holmes of Qu'Appelle Street was the guest of Mrs. Joe Hancock and Mrs. J. P. Hancock last week at "Mountain View Cottage," Cowichan Lake. A large party motored up for a few days' visit, including Mr. and Mrs. Campbell and son, the Misses G. Hancock, E. Maynard, D. Thomas, L. Sparks and Ena Hancock, Messrs. W. Lewis of Los Angeles, Joe Hancock, J. Hancock, B. Feden, G. Hancock and Art. Humphries.

The wedding of Mr. William Maxwell-Muir, only son of the late Mr. Maxwell-Muir, C.E. of Victoria, and Mrs. Maxwell-Muir, elder daughter of Mr. and Mrs. Sidney Baker, of Vancouver, took place at Christ Church Cathedral, Vancouver, on Wednesday evening last. Mr. and Mrs. W. Maxwell-Muir are spending their honeymoon motoring on Vancouver Island.

A quiet wedding took place this morning at 11:30, when Marjorie Louise, youngest daughter of the late Mr. Neff and of Mrs. H. M. Neff, of Shawnigan Lake, and Mr. James Randolph McCann, only son of the late Mr. James Randolph McCann and of Mrs. M. McCann of Victoria, were united in marriage at Bredalbane, by Rev. Dr. J. Campbell.

Given in marriage by her brother, Mr. Leonard Neff, of Shawnigan Lake, the bride wore a frock of green and beige flowered chiffon, a hat to match, and beige fox fur. She wore a corsage of Opheelia roses. Her only attendant was her sister, Mrs. D. Fraser, who wore a frock of blue georgette and hat to match. The groom was supported by Mr. D. Fraser.

Following the marriage service, a wedding breakfast was held at the home of Mr. and Mrs. D. Fraser, Superior Street, where the immediate relatives of the bride and groom were the only guests.

Mr. and Mrs. McCann, left later by motor for Portland, Oregon, and on their return to Victoria will make their home in the Mt. Baker Apartments.

Mr. McCann is on the staff of the City Hall in the water works department.

## Knights of Pythias Install Officers; Order Doing Well

Far West-Victoria Lodge No. 1, Knights of Pythias, at their convention held last evening elected and installed the officers for the ensuing term. There was a large turnout of members and many visiting members attended.

The following officers were duly installed by the deputy grand chancellor, Bro. W. J. Webb, assisted by District Deputy Grand Chancellor George W. Allison and Past Chancellor Chris Benham of Vancouver, B.C.: C.C., M. H. Barry; V.C., John Trenchard Clark; Prelate, J. M. Hughes; M. of W., A. A. Hockley; K.R.S., A. G. H. Harding; M. of F., A. G. H. Harding; M. of Ex., W. J. Webb; M. at A., George R. Todd; I.G., W. J. Carter; O.G., James Lyon.

After reports of the district and officers had been heard the convention closed with a banquet and speeches. The district deputy grand chancellor in his report showed the order on Vancouver Island had made good progress since his last report.

## FIRST WOMAN GUEST AT CLUB

London, July 19.—Miss Megan Lloyd George made political history last night when she attended a dinner given to members of Parliament belonging to her father's party, the Liberals, by the Reform Club. The club is one of the most exclusive of London's "old" organizations, and until last night no woman had been admitted there as a guest.

Mr. McCann is on the staff of the City Hall in the water works department.

## MARRIED IN LAVISH SETTING

The wedding of Mr. William Maxwell-Muir, only son of the late Mr. Maxwell-Muir, C.E. of Victoria, and Mrs. Maxwell-Muir, elder daughter of Mr. and Mrs. Sidney Baker, of Vancouver, took place at Christ Church Cathedral, Vancouver, on Wednesday evening last. Mr. and Mrs. W. Maxwell-Muir are spending their honeymoon motoring on Vancouver Island.

A quiet wedding took place this morning at 11:30, when Marjorie Louise, youngest daughter of the late Mr. Neff and of Mrs. H. M. Neff, of Shawnigan Lake, and Mr. James Randolph McCann, only son of the late Mr. James Randolph McCann and of Mrs. M. McCann of Victoria, were united in marriage at Bredalbane, by Rev. Dr. J. Campbell.

Given in marriage by her brother, Mr. Leonard Neff, of Shawnigan Lake, the bride wore a frock of green and beige flowered chiffon, a hat to match, and beige fox fur. She wore a corsage of Opheelia roses. Her only attendant was her sister, Mrs. D. Fraser, who wore a frock of blue georgette and hat to match. The groom was supported by Mr. D. Fraser.

Following the marriage service, a wedding breakfast was held at the home of Mr. and Mrs. D. Fraser, Superior Street, where the immediate relatives of the bride and groom were the only guests.

Mr. and Mrs. McCann, left later by motor for Portland, Oregon, and on their return to Victoria will make their home in the Mt. Baker Apartments.

Mr. McCann is on the staff of the City Hall in the water works department.

The trail to the Forbidden Plateau, opened yesterday by Lieut.-Governor R. Randolph Bruce, makes accessible hundreds of remarkable views of mountain lakes, snowfields and timber stands. The top picture shows one of the dominant peaks, and the lower photograph is of the snow amid trees in June.

**OBITUARY**

Many friends attended the funeral of the late John Horton, which took place yesterday afternoon from McCall Bros' Funeral Home. Rev. J. Garden conducted the service, during which the hymns "Nearer, My God, to Thee" and "Abide With Me" were sung. Among the many friends attending were Mrs. Chambers representing the Pro Patria Branch of the Canadian Legion, Captain Money the Army and Navy Veterans, and W. C. Warren the Department of Pensions and National Health. Interment was in Royal Oak Burial Park. The pallbearers were: H. Clear, E. S. Chappell, H. C. Williams and F. J. Thompson.

**A Firm Grip On Life at "Fifty-five"**

How Do You Check Up? Here's a Test That Tells

If you have reached the age of forty to sixty, your energy, endurance, vitality, ambition and ability to do the duties and pursue the pleasures of youthful days depend almost entirely on the condition of your Nerve Force. Old age comes not with years but with depleted Nerve Forces. Nerve Force is the fire of life. How strong have you kept your fires burning?

It's as easy, now, in middle life, to have sound, healthy nerves as it is to have clean teeth. Without tedious, exhausting exercise or enforced hateful diets, without doing anything that isn't pleasant and delightful, you may now recharge your undernourished, over-worked nerves and, throughout the "forties," "fifties," "sixties," and even longer, live a full vibrant life that brings business success and social distinction.

Would you like to try it? Have you the courage to make a full twenty days' test that costs but ten cents a day if it succeeds and nothing if it fails? Then go to your own druggist and ask for a 20-day test of Erbac (double strength) with that binding guarantee.

Erbae (double strength) is the new treatment for impoverished Nerve Force in all past forty that is creating a genuine sensation through Canada. It's not a magical fountain of youth, but a scientific builder of NERVE FORCE. Not a "cure" for any recognized disease. Its action is simply on the nerve cells. But in building up nerve strength, not overnight, but steadily and safely day by day, the evil forces that Nerve Exhaustion so surely invades are literally cast from your body. You banish headaches, worry, constipation—complexion clears, indigestion vanishes, eyesight grows stronger and you build up again a vigorous, youthful body, a glowing health that protects you from disease and makes you look, feel and act half your age. Hundreds have made this twenty days' test. Thousands will make it. Will you be one? It's a test that tells what Erbac (double strength) will do for you. See your druggist at once. Begin your test today.

NOTICE TO READER—Above money-back guarantee is absolutely genuine and legal. Manufacturers are responsible.

**HON. R. R. BRUCE OPENS TRAIL TO SCENIC WONDERS**

Forbidden Plateau Made Accessible By Twelve Miles of Trail Dedicated

Many Local and Courtenay Citizens Gather at Interesting Ceremony Yesterday

Courtenay, July 19.—His Honor Lieutenant-Governor Bruce yesterday afternoon officially opened the trail to the Forbidden Plateau. His Honor was accompanied by Miss Mackenzie, Col. C. W. Villiers, Dr. G. K. MacNaughton, M.P., and Mrs. MacNaughton. Rev. M. W. J. Bruce, of Saanich, Mr. Claude Harrison, of Victoria, and about one hundred citizens of Comox district.

P. L. Anderson, president of the Courtenay-Comox Board of Trade, welcomed His Honor at the old Burns homestead where the trail crosses Dove Creek. He said they were glad to have him open a trail which would for some twelve miles through the forest to Goose Lake on the plateau.

C. F. Wood, president of the Courtenay Mountaineering Club, pointed out that the trail would open a route combining the attractions of the Scottish Highlands with the scenery of the Alps, of easy access to the tourist, and possessing an inspiration unequalled. The club was much indebted to the Canadian Pacific Railway for allowing the construction of a cabin on Mount Beecher, he said.

He also thanked Dr. MacNaughton, William Douglas, Claude Harrison and W. P. Beaven for assistance in construction of the trail.

Dr. MacNaughton said the opening of the trail would draw tourists from far and near to see the wonderland of the Forbidden Plateau.

Following the removal of the skunk barrier, Lieutenant-Governor Bruce declared himself a trail blazer, and thought this effort was lifting the curtain from the mysterious plateau. He expressed gratitude to the Board of Trade for making the undertaking possible, and for the service thus given to the community. He praised the co-operation and assistance of the people of the district. Some part of the great army of tourists which spent \$220,000,000 annually in the Dominion, a sum equal to the export value of Canada's wheat crop, would be attracted to the plateau.

He referred to the Island's scenery, and hoped that the public bodies would not stop in the good work they had undertaken, and that in such work as this they could claim to be doing their part in preventing this becoming the age of the vandal.

**Sudden Strains in Tennis Can Cause "Charley Horse"**

By DR. MORRIS FISHBEIN

A not infrequent injury in tennis playing is charley horse. This is the result of a sudden motion whereby fibres of muscles or ligaments may be torn.

These tears occur particularly in the muscles of the legs and thighs. There is a hemorrhage between the fibres and great pain occurs on exertion.

In many instances the player fails to loosen up before he begins to play. He should knock the ball back and forth over the net slowly and gradually work up speed in order not to place too sudden a strain on the stiffened tissues.

Another common injury in tennis is the tennis elbow. In the course of or following tennis or some other occupation such as painting a ceiling in an awkward position or striking the elbow with a hammer, an acute pain is felt in the region of the elbow. This pain may not be so serious as to cause the person to seek medical advice at once. However, the condition persists for weeks and months and may interfere with playing the game.

In this condition one may suddenly wish to reach for a fork or a plate or to lift some object, such as a glass of water, whereupon the extensor muscles set. The result is, of course, that the object held is dropped. The treatment of this condition, it is usually customary to fix the elbow so as to prevent motion in the joint, and by means of the application of heat through baking or by some method give the tissues opportunity to recover.

**Reptiles Reproduced In Casts at Museum**

Boston, July 19.—A new method of preparing exhibits for the collection of snakes, frogs, toads and similar animals has been adopted at the Museum of the Boston Society of Natural History. It produces exhibits so much more lifelike than the mounted skins that it is startling to learn that the creatures which crawl and crouch or cling to miniature tree trunks are carefully tinted celluloid casts.

When a dead snake or frog is received, John D. Smith, preparator of the museum, poses it and then carefully pours plaster over it. After this has hardened, the animal is taken out and in the mould thus formed layers of a celluloid mixture are laid on with a brush. Eventually the plaster is broken away and the celluloid frog or snake is ready for the final touches.

Whenever possible, the coloring is done from the inside, while the celluloid layers are being built up. This can easily be done with snakes, but with frogs the opening through which the preparator must work is so small that much of the coloring must be done from the outside, after the plaster is removed.

**DUNLOP**

**Cable Cord TIRES**

*Every Strand Dependable*

The Cable Cord Tire is outstanding in its general merits.

It is not a tire of one feature only.

The experience of the oldest, the most efficiently organized and universally established rubber industry is built into DUNLOP Tires.

They embody every worthwhile feature of construction that makes a tire reliable under all conditions of road service.

No exceptional claim may be made for any design of tire that is not also representative of DUNLOP Tires.

In the treatment of frictioned fabric the pure gum solution is applied under pressure, thus thoroughly impregnating each ply of cord in the body of the tire. No other method so effectively combines the requisite strength with elastic flexibility.

*The Supreme Product of the Master Tire Builder*

The DUNLOP Tire & Rubber Goods Company is wholly Canadian and British.

You are trading at home when you buy DUNLOP Products—you benefit—so does Canada.

## THE SPORTS MIRROR

Besides the prospect of winning their first American League pennant since 1914, the Philadelphia Athletics, led by that grand old man of baseball, Connie Mack, have a good chance to boast the leading batsman and pitcher of the circuit for the first time in many moons.

Lefty Bob Grove is in front in the pitching parade, enjoying his greatest year so far, while young Jimmy Foxx is making a gallant fight for hitting honors. Foxx and Heide Manush are having a merry old time. Manush lost out to Goose Goslin by barely a percentage point last year. Al Simmons and Mickey Cochrane, two other hard-hitting Mackmen, are in the contention group.

While we are talking about this chap Foxx it might be interesting to state that upon his entering the major leagues he added the superfluous "x" to his name. Baseball players must be getting like the movie folk. What's in a name anyhow?

Grove was the most effective pitcher in the American League in 1928 when he had a splendid earned run percentage, but not since Chief Charles Albert Bender led the list in 1910-11 has one of Mack's twirlers been on the top on the won and lost percentage basis.

It is necessary to go way back to 1901, when Napoleon Lajoie was with the Athletics, to find any member of the White Elephants heading the batting array. Detroit has had a strange hold on this feature of individual prowess, and is not yet out of the running with Harry Heilmann making his customary odd-year bid.

The heavyweight outlook is improving somewhat since Hack Wilson started his campaign in the National League. In the American Association the other day Casey Stengel, who has Dan Boone and it took 1,500 fans at Columbus to chase the Toledo terror back to his corner.

If the present cauliflower trend continues in baseball, the next World Series will probably be held in Madison Square Garden.

The Illinois Athletic Commission recently barred Dan Koloff, a Boston wrestler, from the state. It was charged he wrestled Gus Sonnenberg six times since March 19, and only once under his own name. The other times he wrestled as Dave Shannon. Dan Koloff, who has won the World Wrestling Championship, must have thought a change of name would be for the better.

According to press reports emanating from New York, William Dwyer, president of the New York Americans, is attempting to secure the services of Frank Patrick as manager of the club, to succeed Tommy Gorman, who has resigned. This would create quite a rivalry in the metropolis, because Lester Patrick is pilot of the New York Rangers. In view of the fact that Frank is president of the Pacific Coast Hockey League and also manager of the Vancouver Lions, it is not felt probable that he will take over the management of the Americans.

Local soccer fans will be surprised to learn that the recent tour of the Welsh football team was a distinct financial failure. Although the tour was completed in accordance with the schedule of an unbroken string of victories, it did not impress as other touring teams have. That fact was distinctly noticed in Victoria. It is felt that the tour was a financial failure. Although the tour was completed in accordance with the schedule of an unbroken string of victories, it did not impress as other touring teams have. That fact was distinctly noticed in Victoria. It is felt that the tour was a financial failure.

A number of people may wonder why Bobby Jones is such a miracle at the game of golf. When they learn that he started playing at the age of five it can easily be seen he has a big advantage over the average golfer. As a child he was storky, and his parents sent him on the links to putter around with a club and ball in an effort to improve his health. At the East Lake Golf Club of Atlanta he watched Stewart Maiden at the game while procuring balls. His quick mind soon picked up the rudiments of a game which was to carry him to world fame. To-day, a somewhat corpulent young man of 27, he stands at the top of the golfing world.

Somewhere in his baseball career Walter Johnson, manager of the Washington Senators, must have walked under a ladder. Or maybe he was carelessly tossed his hat on a hotel bed. Or perhaps he exchanged stares with a cross-eyed colored boy in the full of the moon. Anyhow, if baseball's code of woodstock can be taken seriously, "Old Joshua P. Jinx" seems to have been picked out by the buggy ride.

Consider his fate since he has taken charge of the Washington Senators. On paper this spring his team was picked to run one, two, three by the majority of doopers. Illness and injuries hit the team like a Kansas twister hits an up-and-coming wheat field. Even the "Old Train" had to leave the bench for a hospital cot. Ad Liska, the sensational newcomer, flopped. Goose Goslin, last year's batting champion, was off his stride due to illness and injuries. Frip Marberry, whom ball players like as one of the best pitchers in the game, seems destined to go back to his role of bull pen pitcher.

## CAPITALS TO BATTLE COURTENAY

Two of Strongest Teams in Island Baseball League Meet Here To-morrow

Forbes and McKee Will Hook Up in What Promises to Be Pitchers' Duel

In one of the most important games this season the Victoria Capitals will oppose Courtenay in an Island League baseball fixture at the Royal Athletic Park to-morrow evening, commencing at 6 o'clock. Allie McGregor will be the umpire.

Last Sunday Courtenay trounced Chemalunus on their home grounds and this tied up the standing in the lower section. The Caps are now on even terms with Chemalunus both clubs having lost three games. In order to remain at the top of the heap the Caps must take the measure of the most northern club in the league.

After getting away to a rather poor start at the beginning of the season Courtenay are now beginning to hit their stride and have won their last two games. They are being given a keen run for the championship of the northern section by Nanaimo.

FORBES VS. MCKEE

A real pitcher's battle is expected as both teams will send their first string hurlers to the slab. Norm Forbes will work for the Caps, while McKee will be on duty for Courtenay. Both these boys possess a world of speed. Last season McKee beat the Caps once out of three efforts, while Forbes lost and won one game from Courtenay.

Tommy Bowden will be on the receiving end of the local battery, while Downey will be behind the bat for the Up-Island club. The remainder of the Caps will be on the job.

## MANY ENTRIES FOR BIKE MEET

Stan Jackson, Crack Vancouver Rider, to Compete in Events To-morrow

The bicycle meet which is being held by the Victoria Cycling Club at the Royal Athletic Park to-morrow afternoon commencing at 2 o'clock is attracting considerable interest and twenty-one riders have entered for the various events.

Stan Jackson, one of the foremost riders in the west, and former riding partner of Torchy Peden, is coming over from Vancouver and will be a competitor. At the present time he is holder of the five-mile Canadian outdoor record. This record has not been broken for two years. He will be entered for the four mile and the half mile and will be a favorite to win the honors. He will have plenty of competition from Glen Robbins, winner of the Ontario road race; Lou Rush, winner of the quarter-mile open British Columbia championship, and one of the most promising sprinters in local ranks, and Pete Tyson, winner of the twenty-five-mile road race sponsored by the Island Racing Club.

MANY ENTRIES  
In the boys under fourteen event, four young pedal-pushers will line up for the gun. Five under sixteen events have drawn five entries. The one-mile novice, open to boys who have not yet won a first prize in a track competition, will have seven riders in. The feature event, the one-mile open, has drawn nine entries and competition will be exceptionally keen. With Robbins, Rush, Jackson, and Bey Peden competing, it will be a body's race as these boys are well matched and on the other occasion have proved that they can ride with the best in the Province. The half mile and quarter-mile dashes have each drawn seven riders.

## TRACK PRACTICE

The Y.M.C.A. track and field team will work out at the Victoria High School grounds this evening in preparation for the Caledonia Games to be held in Vancouver on August 10. Members of the team are requested to be at the "Y" at 6 o'clock.

## Eddie Tolan Declares Williams Defeated Him By Home Town Decision

Windsor, Ont., July 19.—Eddie Tolan of the University of Michigan, 100 and 200-yard sprint champion of the United States, yesterday charged he was the victim of a "home-town decision" when he was adjudged beaten by Percy Williams in Vancouver recently. Tolan made the statement while passing through Windsor. He is on route to Europe with other United States athletes who are to tour the continent.

Tolan declares he has pictures which show him leading Williams by close to a foot at the finish. He declared that at the conclusion of the race the judges went into a lengthy conference, from which they emerged to announce that Williams won by a close margin.

"I have been beaten before," said the Michigan "Midnight Express," "but never have felt that I was picked second when I actually finished first."

## RELIABILITY TRIAL FOR MOTORCYCLISTS

Trails and Highways of Saanich Peninsula to Test Riders' Abilities  
First annual Event Here to Resemble Trials Held in Old Country

Approximately thirty miles of trails and roads on the Saanich Peninsula will test the abilities of Victoria motorcycle riders next Tuesday night when the first reliability trial ever staged here will be conducted.

The test, which will be similar to those held regularly in England, has been arranged by the Victoria Motorcycle Club and has drawn the interest of practically all the club riders as well as several outside motorcyclists.

The riders entered in the trial will be competing for a prize to be awarded by the club. The start will be made from Holmes Street, Saanich, just off Quadra Street, at 7.30 p.m.

By a device route which will be marked out ahead of time, those entered in the trial will cover the highways and byways of the peninsula. According to the rules, they must do so in a set time and must not exceed nor reduce this scheduled limit.

TORTUOUS TRAILS  
Skill of riders and the durability of the machines will be on trial as the route lies over tortuous trails, over steep hills and to gully bottoms, providing a trial which will try the mettle of the most skillful.

Nine check stations have been arranged at different parts of the route. At each one of these a man will be stationed and riders must report to him as they pass through. The nearer they are to the time limit at each station, the more points they will receive on the test.

## EMPIRE OLYMPIAD BEGINS TO TAKE DEFINITE SHAPE

London, July 19 (Canadian Press Cable).—An Empire Olympiad is definitely beginning to take shape. Colonel Charles McCullough of Fort William, who has just concluded a tour of Great Britain and the battlefields of France and Flanders, with delegates of the Association of Canadian Clubs, said to-day that Canadian athletic authorities were about to invite British and Dominion organizations to participate in the games at Hamilton next year.

He admitted the initial difficulties in securing representative teams, but said he thought these obstacles might be overcome.

## LEADERSHIP TO BE AT STAKE

Sons of Canada and Tillicums Meet in Important Ball Game This Evening

In a battle to decide the leadership of the Senior Amateur Baseball League the Sons of Canada and Tillicums will meet at the Royal Athletic Park to-night at 8.15 o'clock.

The Tillicums are now tied with the Jokers for first place, with the Sons of Canada, hanging right behind. In order to remain on top the slubmen must win. A victory for the Sons would put them on even terms with the Jokers.

Ray Parfitt or John Kerr will twirl for the lodgemen, while Lloyd Gunn will work for the Tillicums.

## FOUR TIED IN P.N.W. GOLF

Dr. O. F. Willing, Defending Champion, One of Leaders at End of First Day

Seattle, July 19.—Although they tied for low score, three professionals and one amateur were left knocking at the door of "Old Man Par" at the end of the first day's play in the Pacific Northwest open golf tournament over the Ingleswood course yesterday.

The quartette included Dr. O. F. Willing, Portland, amateur and defending champion; Fred Morrison, Los Angeles; Neil Christian, Portland; and Harold Dutra, Tacoma, all professionals, or three above par. Thirty-six holes will be played to-day, with the first thirty-six players competing.

Four other golfers were tied for second low with 151 each. They were Frank Minch, Sacramento professional; Jimmy Johnston, Seattle amateur; Harold Sampson, Burlingame, Cal., professional, and Johnny Jones, Seattle professional.

Bon Stein, Seattle amateur and former Western open champion, was third with 152, while Walter Furs, Seattle professional, was fourth with 153.

Among the leading cards are: Dave Black, Vancouver, B.C., 76-78-154, and Duncan Sutherland, Vancouver, B.C., 76-80-156.

The entry list is small. There are no entries from Victoria, B.C.

## IN THE SOFTBALL WORLD

Victoria Wests were awarded the championship of the Victoria Softball League last night when a committee composed of Bob Whyte, J. Sylvester and J. L. Tait, acting as the Judges of Victoria softball, rejected the protest filed by Marigold against the Wests when the latter won the second game of the play-offs last Monday.

The commission, when considering the grounds for the protest, considered the action of a West runner in interfering with the fielding of a ball "an unavoidable accident."

Next Monday the league officials will open the knockout series for the loop. On that evening Victoria West will oppose the Y.M.C.A. Marigold will clash with the Times and the Colwood Wood Company will meet The Colonist.

LADIES' LEAGUE  
Games scheduled for to-night in the Ladies' Softball League are as follows: Harmony versus Rainbows, upper diamond, Central Park. Umpires: Barnswell and Saxon.

Axioms versus New Method Laundry, lower diamond, Central Park. Umpires: Henley and Holman.

## Regina Scottish Defeat Westons In Connaught Cup

Winnipeg, July 19.—Regina Scottish, champions of Saskatchewan, secured a one-goal lead over Manitoba's hopes for Canadian football honors here last night and established themselves as slight favorites to advance into the Dominion Football Association play-down semi-finals at the expense of United Westons of Winnipeg. The score was 1-0.

## Fielding Wins Decision Over Billy Liner

Vallejo, Cal., July 19.—Tommy Fielding, Victoria lightweight, won the decision from Billy Liner, Hayward, in the six-round main event at the Vallejo Athletic Club last night.

## FIVE C'S TO PLAY INCOGS

Cricket Teams Tied at End of First Half; Open New Schedule at Mt. Tolmie Saturday

Opening the second half of the Victoria and District Cricket League, University Incogs and Five C's, the teams which stood in a tie for first place at the close of the first half, will clash at Mount Tolmie to-morrow at 2.30 o'clock.

In view of the fact that they battled through the opening series in a deadlock, the eleven are expected to put up an exceptionally keen game to-morrow.

The Five C's team will be as follows: Eden Quinlan, Eric Quinlan, Pendray, Attwell, Halket, Edwards, Pillar, Galt, Lea, P. C. Payne and J. Payne. Umpire, R. H. Barker, Scorer, Jesse Longfield.

## NEW SCHEDULE

Since the publication of the initial draft of the second half schedule, several changes in proposed games have necessitated the alignment of a new list of matches.

The list follows:  
July 20—Incogs vs. Five C's at Mount Tolmie.

July 27—Albions vs. Incogs at Beacon Hill.

August 10—Five C's vs. Albions at Beacon Hill.

August 17—Five C's vs. Incogs at Beacon Hill.

August 31—Incogs vs. Albions at Mount Tolmie.

September 7—Albions vs. Five C's at Beacon Hill.

## TALL SCOTSMAN LEADS FIELD

Jack Forester Turns in Card of Even 70 in Metropolitan Golf Tourney

Long Beach, N.Y., July 19.—While many of the 150 golfers who started in the metropolitan open championship came to grief on the sandy, wind-swept Lido Course in yesterday's first round, half a dozen of the golfing elite managed to beat the stiff seaside course into submission.

Led by Jack Forester, a tall Scotsman who now hails from Hackensack, N.J., five professionals, equalled or bettered par for the first eighteen holes of the seventy-two-hole medal test. While two more finished in just one stroke above perfect figures Forester negotiated each nine under par to lead the field with 36-34-70.

One stroke behind the leader and still one better than par came Mike Brady and Jim Barnes. Gene Sarazen and Leo Diegel negotiated the eighteen holes in perfect figures of 72 to tie for the next place on the list. Henry Cluel and Bill Melhorn turned in cards of 73 for the round.

## OUR MAIL BAG

SOFTBALL  
To the Sports Editor:—I was very glad to see that someone besides myself has written a letter pointing out the weakness of the present methods and conduct of running the softball games. In Tuesday night's Times the letter referred to the bad grounds, umpires, etc., but I wish to repeat my complaint of a few weeks ago that appeared in The Times, but which, I am sorry to say has been ignored.

I will repeat what I wrote before. Have proper base bags, not merely old sacks or pieces of canvas, and have them at the regulation distance; also have a proper home plate made of wood, and the proper size, not a piece of paper or cloth, or an old cabbage leaf, as I have seen several times. All the players should wear their teams' sweaters, not any old thing. It looks better.

If the game is worth playing at all, it is surely worth playing right, and it is just as easy to play right as it is wrong with a little careful attention.

I trust this will meet the eye of the various teams and that they will act on it as I am sure it will improve the game and that is what we all want. Players and spectators alike.

A very good example is the ground at Work Point Barracks. It is the best there is in Victoria.

## Tilden And Hunter Sweep To Victory Over German Stars

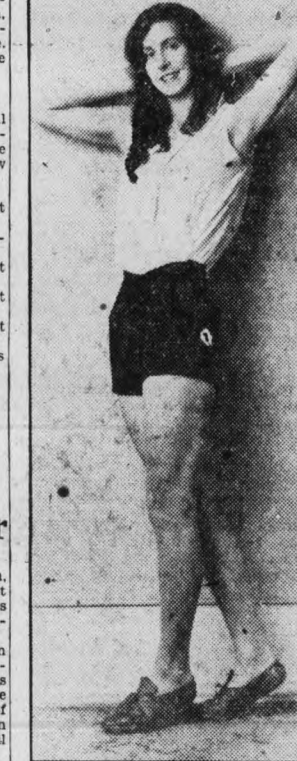

"Big Bill" Displays Much of His Old-time Wizardry to Defeat Hans Moldenhauer in Straight Sets, 6-1, 6-4, 6-4; Francis Hunter in Splendid Form to Win Over Daniel Prens, German Champion, 3-6, 6-3, 6-4, 6-3; Winner to Meet France in Final Round.

Berlin, July 19.—United States swept both of their opening singles matches in the inter-zone Davis Cup tennis final with Germany to-day. Francis Hunter defeated Daniel Prens, German ace, 3-6, 6-3, 6-4, 6-3, after Bill Tilden had trounced Hans Moldenhauer in straight sets, 6-1, 6-4, 6-4.

"Big Bill" carried too many guns for Moldenhauer. The German, eight years his junior, carried more speed of foot than Tilden, but the wizardry of the United States player's racket, dealing out a disconcerting mixture of cannonballs, stinging drives, volleys and drop shots, had him guessing all the way.

The winners of this series will meet France in the final round.

## YOUTHFUL STAR

BEVERLY P. VAIO  
Sixteen-year-old Victoria girl, who distinguished herself by carrying off the honors in the women's high jump from Lido Course in yesterday's mammoth athletic meet held at Vancouver last week-end. She cleared the bar at 4 feet 9 3/4 inches. Miss Vaio is the daughter of Beverly Vaio, who at one time was the holder of many British Columbia sprint titles and also the Canadian standing broad jump record.

## Stribling Is Winner Over Australian

Kansas City, July 19.—Young Stribling, Macon, Ga., heavyweight, won a newspaper decision here last night over George Cook, Australian champion, 1-0 in a ten-round bout. Stribling weighed in at 182 and Cook at 188.

# New Leader May Be Seen Soon in National

## Cubs Sweep Through Paper Defence Of Robins For Gain

Joe McCarthy's Club Now Less Than Game Behind League-leading Pirates Who Were Humbled by New York Giants; Chicago Has Chance to Get Back in Lead for First Time Since July 4; Rube Walberg Returns to Form and Athletics Defeat Detroit; Yankees Idle.

The first phase of John McGraw's own personal crucial battle against the high-riding Pittsburgh Pirates had just the result Joe McCarthy himself would have asked. The Giants turned back the Pirates 4-1 as the McCarthy troops swept through the paper defenses of the Brooklyn Robins in a 11-7 decision. The Pirates remained on top in league standing, but they enjoyed a margin of less than one full game.

Another Chicago victory today, matched by another Pirate defeat, would send the Cubs back to the top by a percentage margin with the standing in games a virtual tie. The Robins have not been at the head of the class since they divided morning and afternoon games with the Cincinnati Reds on July 4, when the forenoon game, it may be recalled, was called at the end of the eighth for business reasons.

The first effort of the Giants against the Pirates was successful largely because of the wizardry with which Carl Hubbell served up his southpaw shots. This budding Pittsburgh nemesis held the Buccaneers to six scattered hits, and permitted none of their number to advance beyond second base until the ninth when Paul Waner was permitted to run wild after getting a single.

On their own account the Giants lapped Ervin Brame for two runs in the second and two more in the third. With Hubbell in such form, these were more than enough, although Fused and Swetonic depicted the home forces more or less abruptly in the later innings.

### Cubs Win By Early Rally

The Cubs began their day in Brooklyn with a seven-run onslaught in the first, which broke Clise Dudley and Ben Ray Moss. From that point onward it was merely a Chicago breeze. Although the Robins did fire away at Hal Carlson with such vigor in the sixth that Joe McCarthy deemed it wise to send out Art Nehf to finish the game.

A five-run rally in the eighth enabled Alex the Great to pick up credit for the St. Louis Cardinals' 6-4 victory over the Boston Braves. Alex gave way to batting relief in the big inning and Fred Frankhouse finished the Phillies turned back Cincinnati by 6-4 in a game noteworthy because no one hit a home run.

The New York Yankees were rained out in Cleveland and the Philadelphia Athletics picked up a technical advantage of half a game by defeating Detroit 8-4. The Mackmen's margin now is eight and one-half contests.

More important to Connie Mack than this paper advantage of having won a game which the Yankees yet have to play was the showing of George Walberg, who in recent games had threatened to enter a slump. Walberg gave the Bengals nine hits, but so scattered these that the afternoon was an Athletics walkover. The Tigers scored three of their runs in the ninth when the Athletics were more or less indifferent to advances by the home boys on the bases.

George Uhle was handicapped by five new errors among his supporters but the Macks hit out enough earned runs to swing the decision to Walberg.

Washington opened its stay in St. Louis by winning a wild 10-3 decision. Seven Washington runs in the seventh decided the issue.

The veteran Red Faber shaded Danny Macfayden in a fine pitching battle at Chicago and the White Sox defeated the Boston Red Sox by 2-1.

Missions..... 7 14 0  
Seattle..... 4 9 1  
Batteries—Hubbell and Hoffman; Fisch, Blevins and Boreali.  
Portland, July 19.—It was the other way around yesterday and Hollywood wiped out the Portland Ducks, who combined their errors with Hollywood hits. The outcome was 11-4. The Hollywood win brings the series to two games for Portland to one for the Hollies.  
R. H. E.  
Hollywood..... 11 8 2  
Portland..... 4 10 3  
Batteries—Hollerson and Seivold; Cook, Orman, Tomlin and Woodall.

Los Angeles, July 19.—Roy Carlyle's home run in the ninth inning, when two men were out, gave Oakland a 3-4 victory over Los Angeles yesterday. The Angels had tied up the score in the eighth, putting across two runs. Clyde Barfoot pitched good ball, but he was accorded poor support by his mates.  
R. H. E.  
Oakland..... 5 8 2  
Los Angeles..... 4 7 1  
Batteries—Craighead, Kasich and Lombardi; Barfoot and Warren.

### CANADIAN GOLF LEADERS

Western Canada is very much in the golfing limelight this year with both the Canadian Amateur and Western Canada Amateur Championships being played over the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24, inclusive. Much organization has been necessary to make sure of the success of these tournaments and none have worked harder than C. E. Harvey of Winnipeg, president of the Royal Canadian Golf Association (left), and C. W. Jackson of Winnipeg, president of the Western Canada Golf Association.

## ESQUIMALT TITLES TO BE DECIDED

Annual Municipal Tennis Championships Will Open To-morrow Afternoon

Record Entry List in All Events; Draw For First Day's Play Announced

With the courts of the Hillcrest Tennis Club in excellent shape the annual Esquimalt tennis championships will get under way to-morrow afternoon with the first matches scheduled to start at 2.15 o'clock.

This year's entry list of approximately one hundred has smashed all records. In the men's singles thirty-two players have sent in their entry forms and Jack Matson, the present champion, is expected to meet stiff opposition in his quest for his second title. In the ladies' singles there are seventeen entries, while the various doubles events have drawn good entry lists.

The draw for the first day's play follows:

**MEN'S SINGLES**  
3.15 p.m.—A. Lockie versus S. Hicks.  
V. Hicks versus Fournace, J. Commey versus D. Warder.  
4.15 p.m.—Wickett versus J. Matson.  
Kison versus H. Davey, Martin versus Foynt.

**MIXED DOUBLES**  
5.15 p.m.—Miss Harris and Wickett versus Miss Parkinson and T. Warder.  
Mrs. Monckton and Davey versus Mrs. Cochran and Stewart.  
3.15 p.m.—Mrs. Aymer and Aymer versus Miss M. Tindall and Porter.  
4.15 p.m.—Miss Allan versus Miss Pacey, Miss Weeks versus Miss Stevens.  
5.15 p.m.—Miss M. Tindall versus Miss Burton.  
7 p.m.—Miss Mulcahy versus Miss C. Tindall.

**MEN'S DOUBLES**  
5.15 p.m.—McVane and Rubbra versus Porter and T. Warder, R. Davey and Margison versus Shandley and Gordon.  
7 p.m.—Butler and Davey versus Clarke and Burton, Keson and Alexander versus Fraser and Kent-Pawkes.

**INTERNATIONAL LEAGUE**  
Toronto 15, Reading 1.  
All others postponed on account of rain.

## TOO MANY HITS IN BASEBALL

"Gabby" Street, Former Famous Catcher, Tells of Good Old Days

By BRIAN BELL

New York, July 19.—"Gabby" Street, one of the great catchers of baseball twenty years ago, can hardly believe his eyes as he sits on the bench of the St. Louis Cardinals and sees base hits rain from National League bats.

The man who marched to fame as the battery mate of Walter Johnson, returned to the majors this year as a Cardinal coach after many years as a minor league manager.

Street, whose real name is Charles although he has heard only "Gabby" since he was a boy, broke like baseball's big time when Cincinnati in 1904. He played, too, with Boston in the National League but his star reached its zenith while he was catching John's cannonball service and chiding batters as they swung and missed. This was from 1909 to 1911.

He was on his way out when he was with the New York Americans in 1912. "There's more hitting now than when you were an active player," was a suggestion designed to draw out the veteran on the subject of baseball then and now.

"More hitting," snorted the old catcher. "Why a club makes more runs in one game than we did in a week."

**15 RUNS A WEEK**  
"At Washington in 1909 we had such pitchers as Walter Johnson, Tom Hughes, Bob Groom, Bill Burns and Dixie Walker. Our pitchers didn't allow but about fifteen runs a week. We finished last, even with the pitcher, because we could only score about two runs a week. We didn't have much offense. We lost a lot of games 2 to 1 and 3 to 2."

"It's not altogether the ball, either. I think one of the biggest differences is the size of the ball parks. So many people want to get in now they have to have some place to put them so the stands are built where the playing fields used to be. In the old days we had plenty of room. All our playing fields were like this big park in Boston."

"A pitcher then could work on a batter and let him hit a high fly. He didn't have to worry about it dropping over the infield into some stand for a home run. I don't believe the younger crop of pitchers can show the stuff the old fellows had. How could they? Nowadays all a pitcher can throw is a fast one, a curve and a slow ball, they are so bound down by the rules."

"Now there is no chance to play 'smart baseball' by resort to strategy to get in position to score one run when by swinging from the heels you can score a half dozen or maybe even a dozen."

"I don't want to seem to be eating sour grapes, but we older fellows certainly lived too soon in baseball. The big money is paid now for less work."

"Twenty and twenty-five years ago there were far more players than jobs and everybody had to hustle to be kept in the game. Now the demand exceeds the supply and it is much less strenuous."

"Another thing, the old boys did not know a thing about saving their money and a month or so after the season was over they were broke. That placed them in a tough spot. They had to have an advance on their salaries, they paid something on account before they earned it they couldn't do much talking back to a club. To-day you never hear of a major league player being broke."

The catcher of yesterday was asked if the lively ball could be hit for many home runs with Walter Johnson pitching as in his prime.

"Oh, yes, the fellows would hit home runs off Walter with this ball—if they could hit it."

"But the old recipe for cooking a rabbit would go for the rabbit ball, too. First they would have to catch the rabbit."

Chicago, July 19.—Emmett Pare, Chicago defender champion, and Keith Gledhill, Santa Barbara, Calif., and Ellsworth Vines, Pasadena, Calif., in the semi-finals of the singles of the western tennis championships yesterday. Pare defeated Jack Harris, Chicago, and Sutter downed Leroy Wier, Chicago.

## Loughran's Educated Left Hand Batters Win From Braddock

Light-heavyweight Champion Outspeeds and Outsmarts Heavy-hitting New Jersey Scrapper in Fifteen-round Bout at New York; Braddock Fails to Land One Hard Right on Titleholder; Plenty of Blood Flows, Both Fighters Suffering Bad Cuts; Braddock Won Only Two Rounds.

New York, July 19.—Tommy Loughran was still ruler of the light-heavyweight brigade to-day and James J. Braddock, Jersey City puncher, had only a boxing lesson to show for his meteoric climb to the rank of contender.

Meeting Braddock in a fifteen-round titanic battle at the Yankee Stadium last night, Loughran piled up points with a stabbing left hand and won the decision beyond a question.

Not once during the struggle could Braddock land squarely with his right hand, without which the Jersey City youngster would not have deserved to be in the same ring with the champion. With Loughran's head and the cut at the side of Braddock's right eye, knocked out Tuffy Griffith in two rounds and stopped the Buffalo speedster, Jimmy Slattery, in nine rounds. Against Loughran, however, Braddock could find no use for his most potent weapon. Outspeeded and outsmarted all the way, the Jersey lad found the champion's left always ready to catch the wild overhand rights that came his way.

Never had Loughran appeared to better advantage. His educated left hand kept most of the evening in Braddock's face. With it he kept the challenger off balance, thus neutralizing the undoubted power Braddock has in his fists.

**LOUGHRAN WON THIRTEEN**  
Of the fifteen rounds Braddock won only two. There were no knockdowns, nor even a threat of one, but there was plenty of blood. Loughran bled freely all through the fight from two bad cuts, one over left eye and the other in his scalp. Braddock was troubled by blood that streamed from a gash alongside his right eye.

Loughran started slowly, giving ground all the way in the first round as Braddock forced all the fighting. In the first clinch, Loughran suffered the cut over his eye and, bothered by the flow of blood, was content to keep on the defensive.

The second round was a repetition of the first. Loughran fought cautiously until he learned what sort of a defense he would need. One wild overhand right in this round caught the challenger off his guard and forced him to the ropes where Braddock scored effectively with short rights and lefts to the body.

**IN COMPLETE CONTROL**  
After this, however, Loughran was in complete control of the situation. "Look at that crowd of 25,000 over the scrap with a 'gate' in the neighborhood of \$90,000."

Loughran weighed 174 pounds; Braddock 170.

Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 1.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 2.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 3.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 4.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 5.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 6.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 7.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 8.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 9.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 10.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 11.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 12.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 13.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 14.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

Round 15.—Loughran led with his left. Dave Shade, California veteran, surprised the experts by punching his way to a decision over Rene de Vos, crack Belgian middleweight, in the ten-round semi-final which was put off by a clever main bout. Each weighed 159 pounds.

### Georgia Peach Wins Newspaper Decision

Kansas City, Mo., July 19.—Young Fox fell off in their hitting yesterday, but remained in a bitter fight for the leadership of the American League and the "Big Six." Manush went hitless and fell into a tie at 387 with Fox, who got one single in five attempts. Extended to four columns the figures would give Manush a shade.

### THE BIG SIX

Both Heinie Manush and Jimmy Fox fell off in their hitting yesterday, but remained in a bitter fight for the leadership of the American League and the "Big Six." Manush went hitless and fell into a tie at 387 with Fox, who got one single in five attempts. Extended to four columns the figures would give Manush a shade.

**JABBY**

The fellow who thinks he's hot stuff with the women hardly ever sets the world on fire."

(Copyright)

Round 12.—Braddock stalked the champion about with his right, getting much satisfaction. The champion, realizing the big margin he had piled up on points, took no chances and stayed strictly on the defensive. The crowd clapped for action and got of his rival's reach, meanwhile massed to see the champion's left hand.

Round 13.—Braddock bored back into a flurry of blows. The crowd yelled as the champion speared Jimmy with his left and skipped out of the challenger's reach. The champion was content to spar and clinch but Tom took one to the face. The champion waded in for a moment with both hands punning Braddock about the body. But there was comparatively little action. Loughran was in complete command of the situation and stood Jimmy off easily with well directed jabs as the round ended.

Round 14.—Braddock plunged in with a body attack and drove the champion to the ropes. Tommy gestured to Braddock to step in and fight. The challenger let both fists fly and clipped the titleholder on the jaw. Both appeared to be exchanging changing remarks that were anything but complimentary. Tommy in desperation and Jimmy in some desperation, massed to see the champion's left hand.

Round 15.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 16.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 17.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 18.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 19.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 20.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 21.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 22.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 23.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 24.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 25.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 26.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 27.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 28.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 29.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

Round 30.—Braddock charged in taking another series of baffling pokes from Tommy's talented left. Loughran tucked up his chin and was forced into a corner by Jimmy's impetuous rush. Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

### Dodges Spring Upset and Defeat Plimleys By 8-5

The worm turned in the Garage Baseball League last night, when Dodges, occupants of the cellar position, took a fall out of Plimleys, one of the leaders, to gain an 8-5 victory at the Royal Athletic Park.

Hughes, working in the box for Dodges, turned in a good game. He was opposed by Meyers.

The game was interesting from start to finish and undecided until Dodges came through with their final rally late in the game.

Both Heinie Manush and Jimmy Fox fell off in their hitting yesterday, but remained in a bitter fight for the leadership of the American League and the "Big Six." Manush went hitless and fell into a tie at 387 with Fox, who got one single in five attempts. Extended to four columns the figures would give Manush a shade.

Round 12.—Braddock stalked the champion about with his right, getting much satisfaction. The champion, realizing the big margin he had piled up on points, took no chances and stayed strictly on the defensive. The crowd clapped for action and got of his rival's reach, meanwhile massed to see the champion's left hand.

Round 13.—Braddock bored back into a flurry of blows. The crowd yelled as the champion speared Jimmy with his left and skipped out of the challenger's reach. The champion was content to spar and clinch but Tom took one to the face. The champion waded in for a moment with both hands punning Braddock about the body. But there was comparatively little action. Loughran was in complete command of the situation and stood Jimmy off easily with well directed jabs as the round ended.

Round 14.—Braddock plunged in with a body attack and drove the champion to the ropes. Tommy gestured to Braddock to step in and fight. The challenger let both fists fly and clipped the titleholder on the jaw. Both appeared to be exchanging changing remarks that were anything but complimentary. Tommy in desperation and Jimmy in some desperation, massed to see the champion's left hand.

Loughran landed his right to the head and avoided another of Jimmy's wild plunges. They were tied up most of the time in clinches but Loughran took a few light blows to the head in a corner. They were sparring at the bell.

## B.C. WORKERS ARE WANTED ON THE PRAIRIE

Federal Employment Director Says Plains Will Take All Men Sent

Vancouver, July 19.—The annual harvesters' excursion to the prairie provinces from British Columbia is no "see Canada first pleasure trip," hence Pacific Coast workers are welcomed by the grain farmers as meaning business. For this reason, J. H. McVey, as superintendent of the Dominion Employment Service here, expects the prairie provinces will absorb as many men as will go from this coast, in spite of the shortened crop and reduced demand for harvesters this season.

A meeting of the Canadian Passenger Association, with employment service officials and representatives of farmers' organizations throughout the west, has been set for July 25 in Winnipeg. At that time the crop situation will be surveyed and labor requirements decided upon for the season. Dates of excursions from the east and British Columbia to carry harvesters to the grain fields when and where they are needed will be set at that session.

Usually, approximately 45,000 outsiders are necessary to harvest the prairie crop, and of that number from 6,000 to 10,000 are supplied by British Columbia, where the Government employment service handles the movement.

ARE WELCOMED

"When the harvesters go east from here, they know they are not making any pleasure trip," states Mr. McVey. "They have a definite job in view, and for that reason are welcomed by the prairie farmers. No matter how many we send, there is always room for more men from British Columbia."

Last year this province supplied close to 10,000 workers for the grain fields, he reported.

Unofficial estimates in Winnipeg this week were that from 10,000 to 15,000 men would be the total prairie requirements this year.

## WEST COAST SERVICE

The steamer will leave for Port Alice and way ports on the 1st, 11th and 21st of the month.

A delightful cruise among the Gulf Islands by the S. Island Princess. Special day excursion rates: Mondays and Thursdays from Victoria and return to Sidney; Tuesdays and Fridays from Sidney and return to Victoria; Wednesdays and Saturdays from Victoria and return to Victoria.

## GULF ISLANDS SERVICE

Effective June 17, 1929, the steamer Island Princess will leave Victoria at 7:15 a.m. Mondays and 8 a.m. Thursdays for Sidney via the Gulf Islands.

The steamer Island Princess will leave Sidney at 9:15 a.m. Tuesdays and Fridays for Victoria via the Gulf Islands.

The steamer Island Princess will leave Victoria at 7:15 a.m. Mondays and 8 a.m. Thursdays for Sidney via the Gulf Islands.

## CANADIAN PACIFIC RAILWAY

Special day excursion rates for passengers every Sunday by Motor Princess from Sidney to Steveston, and return.

## CANADIAN PACIFIC One-Day Excursion Sidney-Steveston

AND RETURN

Every Sunday

PASSENGER FARE \$1.50

Leave Sidney 9 a.m. and 3:50 p.m. Leave Steveston 12:30 p.m. and 7 p.m.

## WEAVERS

Effective May 22 to Sept. 30 RETURN LIMIT OCT. 31, 1929

Reduced fares for all parts of east, liberal stopovers. Fine train, modern equipment, splendid service; scenic route. Short side trips enable you to visit—

## Nine Big Liners Due In Six Days

Commencing next Wednesday the Rithet piers will see an unusually large movement of deep-sea passenger liners, which will not let up until the following Monday. During this period of six days, nine big liners will be in port, inbound and outbound, representing a total of 108,288 registered tons.

There will be two Canadian Pacific Express liners in port during this period, the Empress of Russia outbound to the Orient on Thursday, and the Empress of Asia inbound on Saturday.

The Canadian Australasian liner, Makura, and the O.S.K. liner Arabia Maru will be the first vessels of the fleet, both of them being out-bound on Wednesday afternoon, the former to Honolulu and Australia and the latter to ports in China and Japan.

On Friday two N.Y.K. liners will be in port, one inbound and the other outbound. The Yokohama Maru will dock early that date from the Far East and the Shizuka Maru will sail out-bound during the afternoon.

The Ruth Alexander will dock from California ports on Thursday night and will sail south the following Sunday morning.

Over the week-end two American Mail liners will be in port, the President Madison outbound to the Orient on Saturday afternoon and the President Jackson inbound Monday morning.

Besides these scheduled passenger carriers there will probably be a number of cargo vessels in port during this period which will send the tonnage to a mark for a six-day period in Victoria.

## MAKURA HERE AFTER GOOD OCEAN TRIP

Arrived This Morning From Antipodes in Place of Aorangi Which Is in Drydock

Brought Fair Passenger List and Light Cargo; Capt. J. Spring-Brown in Command

Replacing the motor liner Aorangi, which is in drydock in Sydney for annual overhaul, the Canadian-Australasian liner Makura arrived at the William Head quarantine station this morning at 6 o'clock from Sydney, Auckland, Suva and Honolulu. She left for Vancouver at 9:30 o'clock.

Although she has not been here for several years, the Makura was a familiar sight to most waterfront workers as she steamed up from quarantine this morning. For years she and the Niagara were in service from south sea ports to British Columbia, the Makura being favorably known to thousands of travelers as one of the most comfortable liners on the coast. When the Aorangi arrived from her builders in Europe about six years ago, the Makura was placed on the San Francisco-Australia run. She will return to that route at the termination of her present voyage.

Capt. J. F. Spring-Brown was on the bridge of the Makura when she docked here this morning. The skipper posted a splendid trip all the way from Sydney, which port the ship left three weeks ago. "It was one of the best trips north from Honolulu that I have ever had," he said. Capt. Spring-Brown was here several times last year on both the Niagara and the Aorangi, replacing the regular captains of those liners on their holidays.

FAIR LIST

The Makura brought in 230 passengers this voyage. Of these eighty-six were in the first cabin, eighty-four in the second and sixty in the third. There were no prominent passengers aboard, most of the travelers being people on business or on holidays. Several of the first-cabin passengers were en route to England, while others were en route to the United States, most of whom went on to Seattle this afternoon aboard the S. S. Princess Marguerite.

For discharge here the Makura had only thirty tons of cargo, which was mostly New Zealand butter for local merchants. There was a light cargo for Vancouver also, the liner having only 1,000 tons for that port.

The Makura will sail from Vancouver and Victoria out-bound to the Antipodes next Wednesday afternoon.

The Aorangi, on her first trip after her overhaul, will leave Sydney on Wednesday, and will arrive here August 9.

The Niagara will arrive in Sydney tomorrow, and will immediately be docked, the Aorangi taking her sailing.

The Makura is much smaller than either the Niagara or the Aorangi. She is 8,075 tons with a length of 450 feet, a beam of fifty-seven feet and a depth of thirty-two feet. She was built in 1903 at the A. Stephens & Sons yard, Glasgow, and is registered in London.

 ement and re-laying of Lamson Street  
 School are invited. Specifications can be  
 obtained from the janitor. Tenders to be  
 in not later than August 1st, 1929. Lowest  
 or any tender not necessarily accepted.  
 Secretary, Esquimalt School Board, Lamson  
 Street School.

**Old Country Cricket**  
 London, July 19.—First-class cricket  
 matches in England yesterday pro-  
 duced a fine crop of centuries. Lead-  
 ing the "big scorers" was Jack Hobbs,  
 the noted batsman, who hit up 204  
 for Surrey against the Essex. He was  
 also of Surrey, garnered 131 and was  
 not out. Three centuries came out of  
 the match between Yorkshire and Glou-  
 cester. They were: Barber 114, Old-  
 royd 168 and Greenwood 104, not out.  
 The three batsmen played for York-  
 shire. Croom batted out 131, not out,  
 for Warwickshire against Northampton-  
 shire.

Scores when play ceased were:  
 Players, 253 and 29 for no wickets;  
 Gentlemen, 138 and 310.  
 Somerset, 163 and 101 for one wicket;  
 Surrey, 555 for four wickets, declared.  
 Sussex, 397, Essex, 352.  
 Northants, 362 and 22 for one wicket;  
 Warwickshire, 311.  
 Leicester, 418; Derby, 253, followed  
 on 37 for five wickets.  
 Glamorgan, 297; Yorkshire, 467 for  
 four wickets.  
 Lancashire, 384; South Africa, 218,  
 followed on 36 for one wicket.

**Favorites Scamper**  
**Away With Purses**  
**At Edmonton Races**  
 Edmonton, July 19.—Right from the  
 time spot opened the afternoon's pro-  
 grams on the fourth day of racing  
 at the exhibition grounds on Thursday  
 and scampered away from a field of  
 half breeds, favorites began clicking,  
 and with but one or two notable ex-  
 ceptions the ponies ran as they were  
 supposed to.

In the fifth James Whittier, with  
 Hurlbur up, won the Farmers' Handi-  
 cap, feature race of the day. It was  
 Whittier all the way around. Silent  
 Pradner, given a great play in the  
 muds in the "fourth race, main-  
 tained a lead to within 100 yards of the  
 barrier, when he broke down and Lord  
 Hove once more upset the dogs when  
 he came through the open to win easily.

**Bad Mannered Colts**

## REALTY JOINS MINES IN BOOM ON RAIL NEWS

**Consolidated Smelters Re-**  
**ported to Have Control of**  
**Groundhog Coal**

**Town Lots Jumping in Price**  
**at Stewart; Other Develop-**  
**ments Speed**

Vancouver, July 19 (By Canadian  
 Press).—Stewart and the Portland  
 Canals has been caught in a flood  
 tide of mineral, hydro and railway de-  
 velopment and to-day is enjoying a  
 measure of prosperity never equalled  
 in this district before. Says Major A.  
 E. Jukes, director of R. F. Clark and  
 Company, who has just returned after  
 an extended trip there.  
 The region around Stewart, he says,  
 is being blanketed by prospectors,  
 new claims are being filed almost  
 daily, big outside interests are coming  
 here and either buying properties or  
 filing options, real estate in the town  
 of Stewart is booming and has actually  
 doubled in the last few months. The  
 prospect of the town becoming the  
 terminus of the Northwestern Railway  
 to be controlled by the Consolidated  
 Mining and Smelting Company, has  
 brought joy to the hearts of the old-  
 timers and business interests, and the  
 scheme of hydro-electric development  
 being initiated by the Power Corpora-  
 tion of Canada foreshadows a pro-  
 gramme of industrial enterprise the  
 near future such as only a few have  
 dreamed of.

In the present prosperity of the  
 north there is romance in plenty, con-  
 tinues Major Jukes. The aeroplane,  
 or more properly the seaplane, has  
 revolutionized conditions for the pros-  
 pector.  
 "One day when I was in Stewart I  
 saw the same plane go out four times  
 in one day, carrying prospectors to  
 distant points, with an accompanying  
 load of food supplies. In one instance  
 it went seventy miles northward, land-  
 ed on a lake, disembarked the pros-  
 pectors and the supplies, and was back  
 in two and a half hours. Last year  
 the same prospectors operated in the  
 same region, and when they came out  
 it took them seven days to get in to  
 Stewart.

"With the seaplane operating and the  
 radio everywhere, the prospector is no  
 longer an isolated individual. Surely  
 there is romance in this."  
 It was on the same day that the  
 seaplane made three other trips of  
 lesser or equal distance on similar  
 missions.

**STEWART PEOPLE ELATED**  
 Nothing happening in Stewart, si-  
 the days when the Premier Company  
 operators initiated their big mineral  
 development, has brought greater sat-  
 isfaction to the people of that northern  
 town than the acquisition by the Con-  
 solidated Mining and Smelting Com-  
 pany of the Northwestern Railway, says  
 Major Jukes.

The railway will become practically  
 a subsidiary of the C.P.R. and as  
 such the development of the north  
 country may be regarded as assured.  
 The railway will run through some  
 of the most fertile mineral areas of  
 the entire north and will pass the  
 "front door" of the George Copper,  
 while it will literally also be tributary  
 to some of the other properties that in  
 time are destined to be big producers.

But there is more even than that,  
 says Major Jukes. It has been known  
 for the last two years that the Con-  
 solidated Mining and Smelting Com-  
 pany has been carrying out an ex-  
 tensive scheme of exploration in the  
 Peace River area and westward to-  
 wards the Peace River area.

They have certain definite results  
 there and have secured for themselves  
 the right to develop the area. They  
 will themselves provide under their  
 new charter are developed.

**NEGOTIATE FOR GROUND HOG**  
 Lying between the Portland Canal  
 mines zone and the Ingonia and the  
 rich Ground Hog coal area, the wealth  
 of which is almost fabulous in its ex-  
 tent.

The opinion in Stewart to-day is  
 that if the Consolidated has not al-  
 ready acquired this coal area, it has  
 almost completed negotiations for it.  
 Acquisition of this coal seam is a  
 natural sequence for the big smelting  
 company, in view of its future pro-  
 jects. This coal will be needed for its  
 railway locomotives, for the growing  
 communities of Stewart and Hyder and  
 for general commercial industries that  
 are certain to spring up as develop-  
 ment gets under way.

It is such an orientation of the situ-  
 ation in the north that is giving the  
 people of Stewart the grounds for their  
 optimism at the development going on.

**REALTY DOUBLES IN VALUE**  
 Real estate in Stewart has jumped  
 to twice and three times its value  
 since there is now the prospect of a  
 considerable railway terminus there.  
 Old-timers who have held on to lots  
 for the last ten years have suddenly  
 awakened to find themselves prosper-  
 ous.

"Corner lots were shown to me,"  
 continued Major Jukes, "which had  
 brought offers of \$4,000, as against only  
 a few hundred dollars a few years ago.  
 Their owners are to-day in the usual  
 quandary that comes with advancing  
 prices. They have difficulty deciding  
 which to take the new high prices or  
 hold on for still more. Many, however,  
 are cashing in on their new wealth  
 and the result is that real estate is an  
 active business in the town."

**POWER CORPORATION WELCOMED**  
 "Concurrently with the mineral and  
 real estate developments is the origina-  
 tion of new power supplies. The Power  
 Corporation of Canada is in there in  
 force, also, apparently foreseeing the  
 growing demand for "juice" and is open-  
 ing up a big power project at American  
 Valley, which runs into the Bear River  
 Valley.

Statistics which are shown in min-  
 ing and real estate offices reveal in  
 a remarkable way the extent to which  
 the new electric power will be needed  
 in the next few years, as mineral  
 manufacturing, railway development  
 and industrial enterprise gets under  
 way.

While industries may follow the rail-  
 way project of the north, and eventu-  
 ally may flow in through Stewart  
 for an outlet to the world markets, it  
 is in mining, nevertheless, that the  
 Portland Canal will continue to be fa-  
 vorable for the next few decades at  
 least, Major Jukes believes.

"It is stated in well-informed circles,  
 he says, that the Consolidated has op-  
 tions on some ten to fifteen new prop-  
 erties fanfanning north of the town of  
 Stewart, and is passing up no good  
 bet that offers in the way of "pro-  
 pects."

**PREMIER STILL BIG FACTOR**  
 To-day, however, the Premier Gold

Mining Company still holds first place  
 as the great mining company in this  
 region.

Talk of the Premier petering out,  
 says Major Jukes, must not be taken  
 seriously. It may be that the com-  
 pany regards the parent mines as  
 partly exhausted, but that does not by  
 any means signify any diminution in  
 the operations of the company. Its  
 plant is one of the most up-to-date in  
 the world. Its mining and milling cost  
 are reported to be down below the \$4  
 per ton basis, and it is out to-day to  
 get ore from anyone who has commer-  
 cial ore to offer for milling.

The Premier Border Company, which  
 recently took over the Northern Light  
 property, has an offer from the Pre-  
 mier to handle all its ore as soon as it  
 is ready to ship. The Premier will  
 construct a tram right from the  
 Northern Light tunnel to the mill,  
 thereby placing the Premier Border  
 people in the position of being able to  
 concentrate their ore with practically  
 no capital expenditure at all.

Similar offers have been made to  
 other prospective shippers in the  
 neighborhood. It is only a question  
 of time when the Premier will take  
 over several of its immediately ad-  
 joining properties for direct opera-  
 tion, according to prevailing opinion  
 in Stewart.

**PROSPERITY TO SHIP SOON**  
 With regard to its present sub-  
 sidaries, the Porter Idaho, Silverado  
 and Prosperity, real progress continues  
 to be made. By October of this year  
 the company will be shipping from  
 the Prosperity to its Marmot River  
 terminal, where bins and a power plant  
 have been already installed, and it  
 plans to take the ore direct to Ta-  
 coma or Granby.

It is becoming more and more evi-  
 dent that the Premier and the Con-  
 solidated will eventually have leading  
 control of all the best properties in the  
 north, and these twin mining forces,  
 in conjunction with the Power Corpora-  
 tion of Canada, presents masses of  
 color in the Stewart and Portland  
 Canal picture that are exceedingly in-  
 triguing.

**PHONE SYSTEMS MERGE**  
 Amalgamation has also been effected  
 of the Stewart and Hyder telephone  
 systems with the view of greater ef-  
 ficiency and development.

The roads in the north are equal to  
 some in the lower mainland or on Van-  
 couver Island and auto travel out the  
 Bear River or up by the Big Missouri  
 can now be made with comfort, the  
 roads being really the scenic feature  
 of the north.

The party from Vancouver making  
 the trip to Stewart traveled on N.  
 F. Burdick's yacht Helens B. and in-  
 cluded the following members: N. F.  
 Burdick, capitalist; Wellington Beaton,  
 president of Georgia Rivers Gold Mines  
 Limited; Guy Melin, engineer in  
 charge of Georgia River Mines; Major  
 A. F. Jukes; Hugh H. Reid, a director  
 of Hensworth & Company, and George  
 Muddiman of the International Timber  
 Company Limited, Vancouver.

**TO FACE TRIAL**  
**ON DRUG COUNT**  
 (Continued from page 1)

**SEIZED AT DOCK**  
 The prosecution followed the seizure  
 by customs officers of forty-six tins  
 of opium at the outer dock early last  
 Saturday morning after the Empress  
 of Russia arrived from the Orient. The  
 drug is said to be worth approximately  
 \$2,000.

M. B. Jackson, K.C., appeared for  
 the Crown to-day, and Stuart Hender-  
 son for the defence. Mr. Jackson  
 stated the Crown wished to treat the  
 case as that of an indictable offence  
 and wished trial by judge and jury.  
 The preliminary hearing proceeded.

**OPIMUM FOUND**  
 Mr. Burnes, the first witness, said  
 the accused accosted him at the dock  
 about 11.45 p.m. Friday night, declar-  
 ing he had some dutiable articles to  
 declare.

Mr. Burnes then instructed Mr. Bain  
 to examine his ship. Mr. Bain called him into the  
 customs office and he was taken to the  
 grip at the grip, said witness. Upon  
 putting his hand into the grip, he pulled  
 out a tin of opium. The accused told  
 him this was a tin of opium. "The  
 accused then appealed to me to  
 'have him for the sake of his wife  
 and family,'" Mr. Burnes said. "I told  
 him I couldn't possibly do that, and I  
 telephoned the mounted police."

The accused then told Mr. Burnes  
 he had six more tins of opium aboard  
 ship and two customs officers were  
 sent with him to get them.

The grip was then sealed and re-  
 tained in possession of the customs.  
**TROUSERS AND COATS**  
 Upon being opened by Mr. Burnes in  
 court, the grip revealed six pairs of  
 trousers, three coats and two waist-  
 coats, besides a tin of opium, which  
 was reached. Underneath this bottom  
 were forty tins of opium and one package  
 of six tins.

Mr. Burnes said he had known the  
 accused for six or six and a half years,  
 accused for the barber on the Empress  
 of Russia he had done similar work at a  
 local hotel and also on coastal boats.

Duncan B. Watson, customs examiner, cor-  
 roborated Mr. Burnes in part. He told  
 how the accused had first come to him  
 with one grip which contained some  
 silk goods and hats on which the ac-  
 cused paid duty.

About 1 a.m. the accused returned  
 with two more grips. Witness cleared  
 one of them, a brown one.

**LIFTED GRIP**  
 Accused told him there were just a  
 few toilet articles in the other grip.  
 A black coat and a hat were taken to  
 the Post Office building where the  
 grip was thoroughly examined, he ex-  
 claimed that "he had been a fool and  
 it was up to him to take his medicine."

Sergeant J. B. Paton of the R.C.M.P.  
 told of arresting the accused. He also  
 produced a certificate of analysis for  
 one tin which he took from the bottom  
 of the grip and which the analyst  
 stated contained opium "prepared for  
 smoking."

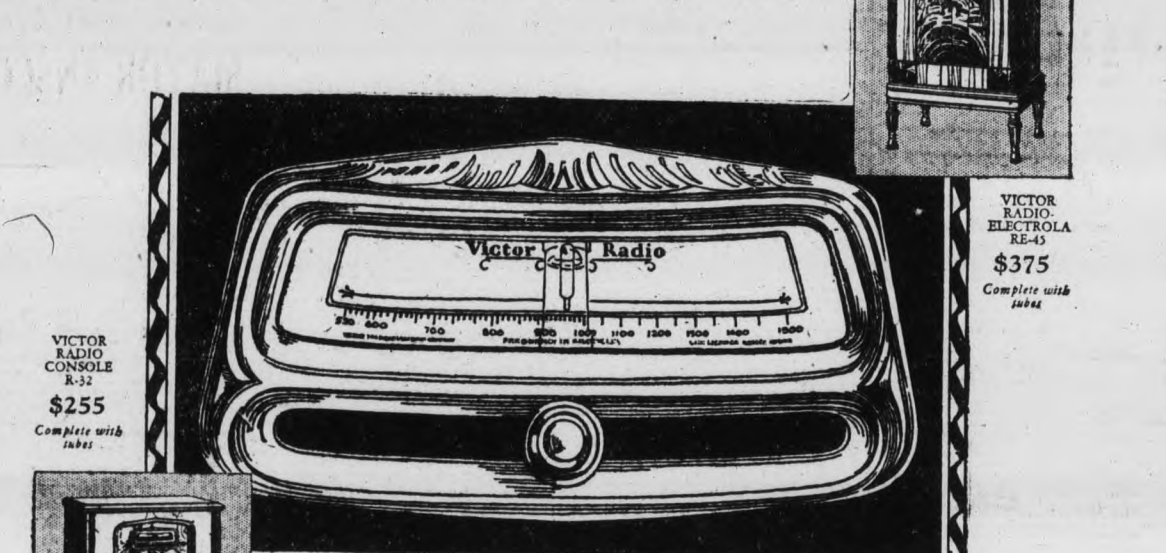

**NEXT REGATTA**  
**AT BRENTWOOD**  
 (Continued from page 1)

**TWO COURSES**  
 Mr. Hope explained to the officials  
 that Brentwood had two courses over  
 which races could be rowed. These  
 were situated in such favorable po-  
 sitions that should a wind make one  
 too rough for rowing, the other would  
 remain quite calm.

He also stated that outside competi-

# Today Victor's greatest instrument

*The Musical sensation of the age*  
 ... the astounding new Micro-synchronous Victor Radio  
 deftly combined with the hitherto costly Electrola  
 in one superb instrument at only \$375

**VICTOR RADIO**  
**CONSULE**  
 A-32  
 \$255  
 Complete with  
 tubes

- Features of Victor's Greatest Instrument**
- 1 A remarkable new and improved Electrola that reproduces V.E. Orthophonic Records with thrilling new power—depth—color.
  - 2 Micro-synchronous balance: every element in micro-exact resonance at any frequency. Selective and sensitive to a super-degree.
  - 3 Improved radio-circuit developed by Victor—unprecedented fidelity.
  - 4 Two new Radiotrons 245 in the circuit; increased volume—no distortion.
  - 5 Exclusive super-automatic full vision station selector as illustrated.
  - 6 Three distinct units — all scientifically shielded. Quickly removable for inspection at any time.
  - 7 Marvelous new all-Victor electro-dynamic speaker—re-creates music from the air or record—beautifully!
  - 8 Exquisitely designed compact Victor cabinets in walnut.
  - 9 Trademarked "His Master's Voice". The world's most famous guarantee in three words and a picture.

At last, an instrument that gives you the finest in radio and the finest in record enjoyment... an instrument with Victor's enduring craftsmanship built into it... with Victor's unending performance ahead of it... at a price that anyone can afford! A revelation.

An all-Victor duo-instrument that brings new distinction to "His Master's Voice" trademark, famous the world over.

... an instrument that combines Victor's latest advance in radio with the new and improved Electrola, both designed and built for each other... both related and balanced in true Victor style... both housed in one handsome cabinet.

Never before was radio so easy to tune. All stations always before you. Never before has radio offered such startling clarity of tone... here at last is a radio that

PHONE 7800

## TO-DAY'S GRAIN MARKETS

Regina, Sask., July 19.—Donovan's report from here to-day says: "From Saskatoon to here wheat showed up fair for less than twenty miles, then started in bad and remained so throughout 150 miles to here, most of stubble and spring ploughed crop being past relief and will not be cut. Some of the fallow land wheat is now taking on slate color and starting to wilt in spots. Flax has suffered severely along with other crops and yields promise to be small on both sides of the line."

Winnipeg, June 19.—The Canadian Government report confirms in part recent private advices of damages bordering on crop failure in some districts and is evidently construed as bullish in Liverpool, Brown to-day says.

Chicago, July 19.—"There is a possibility the advance has been overdone and good rains in Canada between now and Monday would still make a material difference. In our opinion," Chalmers comments to-day.

(Branson, Brown & Co. Ltd.)

Winnipeg, Man., July 19.—Wheat: The wheat market was again nervous and erratic but prices were lower with the range somewhat narrower than for the past few days. The trade appeared to be practically all local and very little buying or selling by outside interest could be seen.

Early prices advanced from two to three cents, October, the most active month, reaching 167, but heavy profit-taking set in and this month broke back to 164 1/2 to meet good support, which caused a reaction of nearly three cents. However, profit-taking by long continued on a fairly broad scale and the upturn was impossible to hold, the market again breaking to new lows.

While the situation in Western Canada and the spring wheat states continues extremely bullish, prices have had an advance of sixty-five cents the past six weeks and some reaction is only natural. In the cash market, the three top grades and these continue to go into the clearing house.

Millers report domestic flour demand as fair, but that export business is out of the question. Direct exporters reported nothing doing overnight but foreign markets steady for Canadian wheat and a better inquiry was in evidence. No intention shown of the three top grades and these continue to go into the clearing house.

The Free Press report is due in morning and the Pool report is expected afternoon. Both are expected to be very bullish. Would buy wheat on further setbacks.

Conse grains: These markets were strong during the first part of the session but weakened under pressure of liquidation and in sympathy with the decline in wheat. Very little consumptive business, however, and exports were sold to be nil.

Flax: Broke sharply under pressure of liquidation in sympathy with the general weakness. Crushers continue to show no interest.

Do not be tempted by the price of cheap teas. Only fine teas will give continued enjoyment

## RIVAL WIVES

By Anne Austin  
Author of "The Black Dipsy" etc.

Nan laid an eager hand on his shoulder, shook him slightly. "Of course you can go to-morrow night. I'll look after everything."

Morgan shook his head at her and frowned, then grinned with wry humor, as he turned back to the telephone. "All right, Ben. I'll arrive at the capital to-morrow evening. . . . Oh, don't bother Evelyn. A hotel will be all right for me. . . . Oh, all right, and thanks, Ben. My best to Evelyn and the future president of the United States."

When he hung up the receiver he turned to Nan ruefully. "The governor insists on my staying at the executive mansion. Ben and Evelyn Hogarth are both good scouts, and usually I'd enjoy a visit with them, but right now—"

He paused, passed a hand wearily across his eyes, and Nan knew that his unfinished thought was that it would be almost unbearable for him, a man whose wife had left him because she did not love him, to go into a home that was nationally famous for its domestic felicity.

"But it is awfully decent of them, and you'll enjoy it more than you think," Nan insisted with forced casualness. "Isn't it splendid that the governor's got around to the Brownlee case so soon? I'm sure you can make him see that this is one case where the granting of executive clemency is a high privilege, not merely an act of mercy."

Morgan's mouth twisted in the wry, humorous smile that she loved to call forth. "I think I'd better send you to the capital in my place. Poor Brownlee has always been your special pet, anyway."

"Thanks awfully," Nan grinned, "but it would be very inconvenient for me to get away right now."

"And so it is for me," Morgan remembered gloomily. "I had intended to spend most of this week, after the

sides," and he sighed heavily, "there's the nuisance of keeping up a big house, just for Nan and a child."

"I think," Nan broke the silence hesitatingly, laying the words down gently so as not to anger him, "that Curtis has a right to a real home to grow up in. And since he's been left to you alone, it will be your job to make that home for him somehow. It won't be easy. But seeing him grow up, your companion and friend as well as your son, will pay you, I believe—Oh, can't you see the other side of the picture?—a poor, lonely little misfit, shuttling from boarding school to summer camp and back to school again, homeless, parentless, except for a father whom he sees two or three times a year and who is worse than a stranger, because he takes liberties and scolds?"

Morgan groaned. "Lay off, Nan! I'm not like Brainerd. I know when I'm licked. Will you help me a bit—dig up a good housekeeper that will take an intelligent interest in the boy? God knows I want to do the right thing by him."

Nan considered a moment, her capable, slim fingers twisting a lock of her short brown hair. "You'll be at the state capital several days, I imagine. Would you think it awfully cheeky of me if I suggested going out to your house and staying nights with Curtis while you're gone? I could get things in shape with the cook and the maid. I could also get Curtis started in school and have time to look about for a housekeeper."

"Would I think it cheeky?" Morgan interrupted. "Good Lord, Nan, I'd think it angelic of you, and you know it! Curtis will be tickled to death, too. You're the only human being that can do anything sensible here."

The next day the Lolo Downs case went to the jury just before noon, and within five minutes a verdict of "Not guilty" was returned. John Curtis Morgan with another sensational court victory to his credit, boarded a train at two o'clock to visit his father in the state capital.

Estelle, the maid, opened the door before Nan could reply to Curtis's embarrassing question. The tight-lipped maid, who obviously resented Nan's intrusion, led the way silently after a curt greeting, up the broad staircase to the second floor, but the child's voluble chatter more than made up for any conversational shortage on Estelle's part.

"Nana's my own special comp'ny. Estelle—ain't you, Nana? Nana works for my father in his office, and she's going to be a lawyer too when she's grown-up—just like me, ain't you, Nana?"

"I'm already grown-up, Curtis," Nan laughed, "but I am going to be a lawyer. Maybe you and your father and I will all be partners together some day."

"Oh huh," Curtis agreed, charging on ahead to open the door of the guest room that had been assigned to Nan. "Listen, Nana, I got a police puppy and guess what I named him? Cop! He digs tunnels in the snow and he can prettily jump through a hoop. I'm teaching him tricks. Here's your room, Nana. It's got twin beds in case your man-and-wife. But you ain't man-and-wife, are you, Nana? Does man mean husband, Nana?"

"Yes, and I haven't a husband, Curtis, so I'll need only one of these pretty beds," Nan assured him, as she looked about the large, beautiful guest chamber with dazzled eyes.

"You're not listening, Nana!" Curtis stormed with sudden petulance. "I said—if you ain't man-and-wife, could I sleep in here with you in the other twin bed? Clara's gone," he explained proudly. "I threw a fork at her and it stuck in her cheek. I ain't got a nurse any more, and I'm not gonna have one either. All the other kids make fun of me because I have a nurse. But can I sleep with you, Nana? I—I don't exactly like to sleep by myself."

Nan knew that now was the time to bargain with the spoiled little boy for his good behavior, but there was something so mournful and wistful in the liquid black eyes which were pleading with her that she capitulated without a single "If you'll do so-and-so." Too many people had bargained with Curtis already; he needed a new method of discipline, but Nan still had not the faintest idea what that method should be.

(To be continued)

SATURDAY, JULY 20

CFCT (475.9) Victoria, B.C.  
8 a.m.—The morning market quotations from the B.C. Bond Corporation.  
Hon. T. R. Bavin, premier of New South Wales, will speak at a Canadian Club luncheon in Vancouver on Tuesday, July 23. As usual, radio station CNRV will broadcast the speech, which commences at 12:25 in the afternoon.  
Mr. Bavin, who has just returned from a visit to England, has the reputation of being a gifted speaker. In his Vancouver address, he will talk on present-day affairs in general.

Debt Ratification  
Compromise Plan  
In France Fails  
Paris, July 19.—Efforts to find a compromise by which reservations to the foreign debt ratification bill might be incorporated in a special resolution or subsidiary bill failed to-day when the finance committee of the Chamber of Deputies almost unanimously declared itself in favor of incorporating the reservations in the text of the bill itself. This is in direct opposition to the declared policy of Premier Poincaré.

## Glen Lake

Miss Jessie McLean, of Victoria, is visiting Miss Sheila Tait for a few days.

Mr. and Mrs. David White, Miss Margaret White and Bob White are at their summer home for the holiday months.

Frank Reid returned to Vancouver Sunday night after a brief holiday with his family at Cedar Point.

Miss Sheila Tait will have as her guest this week Miss Frances Tremayne, of William Head.

Miss Minnie Scouler, of Victoria, is visiting her grandparents, Mr. and Mrs. John Scouler, Happy Valley Road.

Mr. and Mrs. Jack Moffatt and son Jack spent a few days at Glen Lake.

Mr. and Mrs. Alec Robertson were recent guests of Mr. and Mrs. M. A. Morrow.

Mr. and Mrs. Harold Campbell and family, of Kamloops, B.C., are spending the holiday months with the former's father, J. M. Campbell, "Argyll."

Once Louisa May Alcott, then a little girl never dreaming of becoming a famous writer, ran away from home and got lost. Leg-weary, she didn't know what to do, when she spied a big dog sitting on the doorstep of a house from which everybody but the canine seemed to have departed. He wagged his tail in a friendly fashion so she went up and sat down beside him. Soon she fell asleep, her head pillowed against his shaggy side.

Hours passed. Her family missed her and began a search. When she was found she was still asleep. The big dog hadn't stirred, remaining patiently in a position that must have gotten extremely tiresome so as not to disturb her.

## OUT OUR WAY

Colt Started Invention as a Young Sailor Boy

Samuel Colt, sixteen years of age, sat on the deck of a sailing ship and worked with some scraps of wood and metal. The ship sailed along smoothly and most of the sailors were having a rest, well earned, for they had just passed through a series of stormy days, when all hands had been hurrying

about the wave-swept decks and working with the ropes.

Though he was so young, Samuel was a full-fledged sailor boy. Large and strong for his age, he was able to give a good account of himself in stormy weather. Yet, though he loved the sea, his mind was always busy with other things.

Another sailor came along and watched him curiously. "What're you making?" he asked.

"A kind of gun," explained Samuel. "You see, I'm putting these long barrels together so they rotate—this way."

He was already working on an invention which made him famous. He invented the revolver, his idea being to make a kind of gun which would not need to be recharged after every shot, and which could be used by the settlers in defending themselves. He was born on July 19, 1814.

## BEDTIME STORY

## Uncle Wiggily and the Rolling Ball

Copyright, 1929, by McClure Newspaper Syndicate

By HOWARD R. GARIS

There was once a ball so jolly and round that it could roll all over the world if it wished. It was a sort of rubber ball, and had once belonged to a boy who tossed it to and fro, batted it with sticks and even kicked it along the sidewalk.

"But I like that," the ball used to say as a kick of the boy's foot sent it skimming up through the air. "Whoopee! What lots of things I can see! I'm almost like an airplane!"

And away he would go, sailing through the air or rolling on the ground. But once the boy batted the ball so high and far with a stick that it was lost. The ball fell into a clump of grass over in a field and when the boy went to look for his ball he could not find it.

"Oh, dear!" said the boy. "Oh, dear!" thought the ball. For though it could talk in its own way it could not speak as could the boy, so the ball could not call out and tell where it lay hidden.

And the ball did not want to be lost. It liked being tossed, batted or kicked about by the boy, for in that way the ball had fun and saw many new sights like a traveler all around the world.

The ball hit the Bob Cat on his nose.

"Oh, dear! I hope I shall not have to stay here forever!" sighed the ball in the grass. "I hope that boy finds me and that I have some more sails through the air or rolls over the ground."

But, though the boy looked here and there for his ball he did not find it, so he gave up and went his way, leaving the ball in the grass.

"I wonder if I can roll or bounce by myself!" thought the ball after a while, as it lay in a tangle of grass. It wrinkled its nose and blinked its eyes.

Oh, yes! I forgot to tell you the ball had a face which had been painted on when it was new in the toy store. But much of the face had been worn off by the tossing, batting and kicking of the boy. Still you could see where the eyes, nose and mouth had been.

But though the ball tried to roll out of the grass it could not, having no arms or legs, so there it had to stay a long time until the grass dried and became thin. Then, one day, came a big blow of wind which sent the ball rolling out of the dried grass clump.

"Hurrah! Now I'm on my way again!" cried the jolly ball, and truly it could roll once more, blown by the wind, there being no thick, green grass to hold it back. And sometimes when it rolled fast and hit a stone or lump of dirt the ball would bounce into the air.

This is like old times with my boy," thought the ball, and so it lived for quite a time, being rolled only by the wind. Then came winter and the ball was frozen under the snow. But it did not mind. It went to sleep

## To-morrow's Horoscope

SATURDAY, JULY 20, 1929

Except in the early morning this is read as a day of unfavorable planetary government for dwellers on the earth. According to astrology, malefic aspects dominate.

It is an unlucky day for those who are brain workers, making for sluggish thought and unwise decisions.

The way is not lucky for aviation in the sense that there is a tendency toward accidents to-day.

All the indications are for a remarkably progressive six months in aerial navigation. A new invention of supreme value is foretold.

The wise will avoid bankers to-day when financial matters are likely to appear even more disappointing than normally.

Letter-writing may be peculiarly perilous under this sway, which is especially dangerous for those who send love missives.

Many notable marriages are foretold for the future. In Europe princes will wed, if the stars are rightly interpreted.

The seeds declare that the best possible planetary influences attend the new issue of United States currency.

At this time both men and women are advised by occultists to upractice concentration and to avoid the temptation to scatter the energies. Women are especially susceptible to this inclination toward diversity.

As the lunation of July passes, general astrological influences promise to be more helpful, astrologers declare.

Persons whose birthday it is have the auspicious of a prosperous year, if they earn success through hard work. Speculation of every sort will be unlucky.

Children born on this day probably will be gifted with spiritual aspirations as well as unusual mentality. The subjects of this sign are as a rule sensitive, versatile and changeable.

Petrarch, the Italian poet, was born on this day, 1304. Camille Corot, famous painter, 1796, also claimed it as his birthday.

(Copyright, 1929)

until spring came, and then summer. So one day the ball lay on the ground in the warm sunshine and along hopped Uncle Wiggily.

"Ah, ha!" exclaimed the rabbit gentleman. "Here is a ball that perhaps one of my little rabbit boys or girls lost. I will take it to my bungalow."

"No, Uncle Wiggily," said the ball, who could speak rabbit talk, though not the kind you boys and girls understand. "No," said the ball, "I do not belong to any of your bunnies, Mr. Longears. I was a boy's ball once, but now I roll along by myself as the wind blows me."

"Oh, is that so?" asked the rabbit gentleman. "How jolly! I am quite a traveler myself. I hop around to have adventures."

"Please take me with you!" begged the lonesome ball.

"Come along!" invited the rabbit. So he hopped and the wind rolled the ball and the two went on and on and on.

"But where is the adventure?" asked the ball, after a while.

"I think it is coming now!" whispered Uncle Wiggily as he heard a rustling in the bushes. "Yes, here it is!" he shouted as the ball sprang out from behind a tree. And the Bob Cat was hungry.

"Oh, let me see the adventure!" cried the ball. Just then the wind blew hard. The ball rolled, bounced and hit the Bob Cat on the nose.

"Ough, wow!" howled the Bad Chap who was going to bite the rabbit.

"Ha! Ha!" laughed the ball. "What a jolly adventure!"

"Good shot for you!" shouted Uncle Wiggily as the Bob Cat ran away with his sore nose and silly little tail no bigger than your thumb.

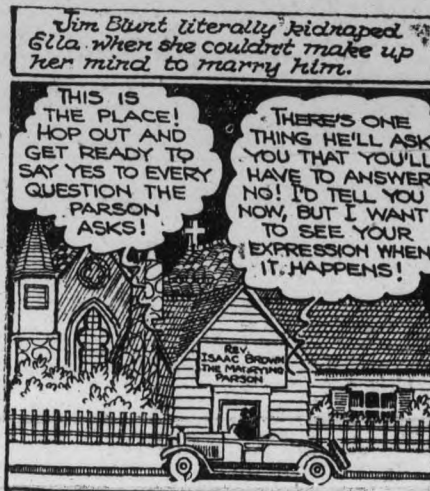

Then the rabbit, rolling ball traveled on and had lots of fun. Uncle Wiggily could always hop, but there was not always a wind to blow the ball. Then the rabbit carried it, tossing it up in the air as the boy had done. So the old ball with the funny, wrinkled face, was very happy. And if the clothes horse will bring a rope to the J. & W. Jack to ship, I'll tell you next about Uncle Wiggily and Lulu's quacks.

Red "ball-lights" are supplied to the policemen on night duty at Mulhouse, Alsace-Lorraine; each man carries three suspended from his belt at the back.

## Buy Foods "In Season" To Get Best Quality

By SISTER MARY

Whether one lives in the country and raises one's own vegetables and chickens or in the city where one is dependent on the markets the easiest and most healthful way to keep house is to use the seasonal products.

Seasons mean so much less these days when food is shipped so far

and in such excellent conditions than it did in the days of our grandmothers that we are apt to forget that each vegetable and fruit has a certain period of perfection and abundance. At these times the food is usually at its lowest price.

Many of the by-products of foods have a sort of "season" when they are particularly plentiful and of superior quality. Cottage cheese is an example of this. During the summer months when milk will become thick or "clabbered" within twenty-four hours if not kept on ice, cottage

cheese is at its very best. There is a delicacy of flavor not found at other seasons of the year. Smoked and salted meats and fish are often more popular during hot weather than the fresh products. Ham, cured, is a summer standby but fresh ham is relished only during the winter months. There are many varieties of smoked sausages that are particularly liked when the thermometer mounts. The housewife who markets with this idea in mind will save money and supply her family with the best the market affords the year around.

The accompanying recipe for cottage

cheese pie is reasonable and ideal for summer meals. Served with a vegetable dinner no meat is necessary. A vegetable salad, glass of lemonade and piece of pie would make an adequate and well balanced luncheon.

COTTAGE CHEESE PIE

Three eggs, one-half cup sugar, one-quarter teaspoon salt, one cup cottage cheese, one-third cup dried currants or small seedless raisins, one lemon, one and one-half cups milk, six tablespoons powdered sugar.

Separate whites from yolks of two eggs in ice box for meringue. Beat

yolks of two eggs and one whole egg slightly with sugar, grated rind and juice of lemon. Add cheese, salt and currants. Slowly add milk, stirring gently. Turn into a pie pan lined with plain pastry and bake in a moderate oven until firm to the touch, about forty minutes. Beat whites of eggs until stiff on a platter with a wire whisk. Beat in half the sugar and fold in remaining sugar. Pile on top of the pie and bake eight minutes in a moderate oven. Serve cold.

## PARACHUTIST DROWNED IN COLUMBIA RIVER

Portland, July 19.—The first airplane ride and parachute jump Conrad Blatter, nineteen, of Kirk, Oregon, ever took proved to be his last here yesterday as he plunged into the Columbia River from a height of 2,500 feet and was drowned.

The average life of the grocer in business has been from five to ten years and ninety-five out of every 100 have failed.

## For Easier Cooking

Splendidly efficient in operation, the Victoria-built Albion Range will enable you to cook better and more easily. See it at any dealer's.

The members of the St. John's Church Choir and of the young people's societies spent their annual picnic at the residence of the Rev. Montagu Bruce, Mount Newton, where they were hospitably entertained. The spacious lawns, shrubberies and tennis court were thrown open for their enjoyment with indoor and outdoor

games. Fifty sat down to the supper table spread with a sumptuous repast on the croquet lawn. The Rev. F. A. Chadwick thanked the host for his kindness in placing his beautiful residence and grounds with its picturesque surroundings at their disposal. The many vari-colored lights with music, dancing and games lent enjoyment to a perfect moonlight evening.

## FOWLER HEADS CANADIAN CLUB

Chamber of Commerce President is Chosen to Succeed Late Mark Graham

New officers for the Men's Canadian Club to fill the vacancy created through the passing of the late president, Mark W. Graham, were named at a meeting of the executive committee yesterday.

P. B. Fowler, manager of the Canadian Bank of Commerce and president of the Victoria Chamber of Commerce, was chosen Mr. Graham's successor in the presidential chair. Mr. Fowler will direct the organization's activities until the end of the year.

W. H. M. Haldane was chosen first vice-president. Mr. Haldane was elected to the post of second vice-president at the club's annual meeting in February.

Announcement of the addition of the following members to the club roster was made: Frank W. E. Gregory, P. Matthew Fee, James W. Hudson, W. C. Hudson, Walter S. Maguire, W. T. Mollard, Commander L. W. Murray, Eric Peplar and Alexander D. Ramsay.

A resolution of sympathy to Mrs. Graham and family upon the sudden death of Mr. Graham will be extended on behalf of members of the club by Secretary Frank Sehl.

The Canadian Club has extended an invitation to Hon. T. R. Bavin, Premier of New South Wales, Australia, to address the members next week before his return to Australia aboard the S.S. Makura. Mr. Bavin has been on an official visit to England for his Government.

## LOG CASE FOR PRIVY COUNCIL

British Columbia Gets Permission to Carry Appeal Direct to Highest Court

Notification was received by the B.C. Government yesterday from London that leave has been granted to appeal direct to the Privy Council in the case of the McDonald-Murphy Lumber Company which tests the right of the province to impose a tax on logs for export cut on Crown lands.

Chief Justice Morrison, in the Supreme Court of British Columbia ruled that the Crown had no power to collect the tax which has been in force for many years and was introduced as a measure to reduce the exportation of logs from British Columbia and encourage the manufacture in this province.

Expense of legal proceedings before the B.C. Court of Appeal and the Supreme Court of Canada is saved by the permission to carry the case direct to the Privy Council. It is expected the case will be heard in November and that the decision will be available when possible new legislation to come before the next session of the Legislature is considered.

## Salt Spring

Mrs. N. W. Wilson, who has been visiting friends at Victoria and Deep Cove, returned on Tuesday.

Mr. and Mrs. G. B. Benson and daughter returned on Tuesday after several weeks in Victoria.

Mrs. Layard of Deep Cove is the guest of her relatives, Mr. and Mrs. Norman Wilson of Barnaby.

Mr. Baskerville Sr., who has been the guest of his son and daughter-in-law, Mr. and Mrs. Clifford Baskerville, has returned to his home at Sooke.

Mrs. Frank Crofton, who has been in Vancouver for ten days, returned on Sunday.

Douglas Gibson of Victoria arrived on Tuesday to spend ten days with his relatives on Broadwell's Mountain.

Mrs. E. Parsons, who has been visiting friends in Victoria for two weeks, returned on Tuesday.

Mrs. H. Pullerton of Vancouver returned home on Tuesday after spending two weeks at Ganges with her parents, Rev. and Mrs. G. W. Dean.

Mrs. Douglas Hamilton returned on Tuesday from Victoria.

Mr. Parkes of Vancouver, who has been the guest of Miss Imnell, left on Tuesday.

Miss Winnie Mercer of Nanaimo is

the guest of her aunt, Mrs. J. Mout, Ganges Harbor.

Mr. and Mrs. D. S. Harris, accompanied by their son Keith, spent a few days in Victoria recently.

Mrs. J. S. Rogers and Miss Lorna Rogers of the Cranberry Mountain were visitors to Victoria last week-end.

Mr. and Mrs. H. A. Robinson, Central Salt Spring, paid a visit to Victoria recently.

## HIGH SCHOOL PLANS DELAYED

Deadlock Develops in Saanich Council When \$6,000 Grant Is Proposed

Led by Councillor Watson, rural members of the Saanich Council last night held up a vote of funds to Saanich School Board for preparation of plans and specifications for the new high school.

Councillor Edger moved for the provision of necessary funds as requested. He recalled that the trustees had asked for a grant of \$6,000, and at a recent joint meeting of the board and council, informal agreement to provide the sum had been attained. Lack of action would be a breach of faith, he considered.

**SECESSION'S EFFECT**  
Councillor Watson demurred against expenditure being incurred while secession was unsettled, and moved for delay until October, being supported by Councillors Hagan and Oldfield.

Reeve Crouch suggested a vote be deferred to a later meeting, in view of the certainty that a deadlock would ensue. Both sides insisted upon a vote, the line-up being: for delay, until October, Councillors Watson, Borden, Hagan and Oldfield; for a grant not exceeding \$6,000, Councillors Edger, Paterson, Stubbs and Reeve Crouch.

## NEED HOSPITAL ON WEST COAST

Hon. S. L. Howe Reports on Return From Fisheries Inspection Tour

A centrally located and fully equipped hospital is badly needed for the fishermen, loggers and mill employees of the West Coast of Vancouver Island, Hon. S. L. Howe, Provincial Secretary, states following a tour of the coast in company with J. P. Babcock, Assistant Fisheries Commissioner.

The object of the trip was to inspect fisheries, and the Provincial Secretary reports that he was considerably impressed with the extent of pilchard operations. Although the season is later than usual the operators hope to exceed last year's output of 3,000,000 gallons of oil and 14,500 tons of meal.

Mr. Howe will leave on July 25 for the north, where he will inspect the salmon fishing of Rivers Inlet, the Skeena and the Nass. He will also attend the annual convention of the Canadian Fisheries Association where he will speak on the Fraser River Treaty, and voice the desire of the Province to have the treaty ratified at the next session at Ottawa.

## Malson Mill Will Be Rebuilt Soon

The sawmill of the Malson Lumber Company, recently destroyed by fire at a point west of Sahlman, is to be replaced. It was stated today, to continue cutting a two-year's supply of timber remaining in the limits.

An application may be made to the Esquimalt & Nanaimo Railway lands department for further timber in the area, which lies south of the Chemainus River. Extensive operations in the area of the Chemainus River are contemplated by various concerns, as the Cowichan Lake area is cut over,

## AT THE THEATRES

### JACK LONDON STORY IS PICTURIZED ON COLUMBIA SCREEN

A Jack London story, with handsome Ricardo Cortez and beautiful Carmel Myers as the hero and heroine, and such sterling assistance as can be depended upon from George Fawcett, Gino Corrado, Frank Lackteen, Frank Leigh and Shirley Palmer, is sufficient guaranty that "Prowlers of the Sea," the feature at the Columbia Theatre, is real motion picture entertainment.

This is the fourth of the Jack London stories which Tiffany-Stahl has transferred to the screen.

### FILM STAR TAKES TO AIR; READY NOW FOR LESSONS

Barbara Leonard, whose dancing is as light as a feather and who proves it in "Ladies of the Night Club," wants to be an aeroplane pilot and has completed arrangements for flying lessons. "Ladies of the Night Club," a Tiffany-Stahl picture, is at the Playhouse Theatre to-day with Barbara Leonard opposite Ricardo Cortez.

### POPULAR SONGS OF BROADWAY ARE SUNG IN "MOTHER'S BOY"

Morton Downey, Broadway's most famous tenor, sings several of his popular songs in the Pathe all-dialogue picture production, "Mother's Boy," which is in view at the Dominion Theatre. The theme song which he sings with splendid effect at the bedside of his supposedly dying mother is "I'll Always Be Mother's Boy," and there were few dry eyes among the watchers during the filming of the scene at the Pathe sound studio in New York.

Another popular song rendered by Mr. Downey in the fashionable cabaret scene in the picture, is "The World is Yours and Mine." In his love scene with Helen Chandler, who plays opposite him, he sings with fine expression, "There'll Be You and I."

### DAVEY LEE, CHILD STAR, RARE GENIUS SAYS REINHARDT

Max Reinhardt, celebrated impresario of the European stage and widely known here for his marvelous presentations of "The Miracle," considers Davey Lee a child of rare genius. Mr. Reinhardt was deeply moved by the little lad's performance in Al Jolson's "The Singing Fool."

Davey Lee is playing at the Capitol Theatre as star of the all-talking picture "Sonny Boy," Warner Bros. latest production. His support includes Edward Everett Horton, Betty Bronson, Gertrude Olmsted, John T. Murray, Edmund Breese, Lucy Beaumont and Bert Frouxy. Leon Zuardo wrote the story. The scenario is by C. Graham Baker. Archie L. Mayo directed.

The story has to do with a family tiff, during which Sonny Boy's mother's sister kidnaps him to prevent the father taking him away.

### KIDDIES' REVUE AT COLISEUM CLOSING TO-MORROW NIGHT

To-morrow will be the last opportunity that local theatre-goers will have of seeing "The Winnipeg Kiddies' Revue," the stage attraction at the Coliseum Theatre this week. Every evening large audiences have been to the Coliseum and have shown their appreciation of the excellent bill by unstinted and enthusiastic applause.

The show is one of the finest of its kind ever seen in Victoria. The various members of the clever little troupe are all between the ages of six and twelve, which fact alone would make them charming. Besides this natural gift the youngsters are brilliant in their respective roles and give splendid interpretations of dances, songs and comic numbers. Their numbers, of turns done in unison, and the rhythm and general tunefulness of these particular items on the programme are delightful. To Miss Gracie Cumbers must necessarily go the honors for clever acrobatic dancing. This clever little girl, who is only eleven years of age, does a number of intricate dances in fine style, thereby winning plenty of hearty applause from an admiring audience.

On the screen for the last three days of this week the management presents the screen version of Anne Nichols' famous road show, "Abie's Irish Rose." An excellent cast is featured in this popular story, which in other cities has been as well received as the famous road show of the same name.

### To Strengthen Pupils' Claim To Education

To prevent withdrawal from unvaccinated children of the right to attend school, the North Vancouver City Council will ask the convention of the Union of Municipalities to support legislative changes making explicit the right of such children to continue their education without interruption. The Saanich council was last night informed of the pending resolution, but decided to leave the question to the discretion of the delegates representing Saanich.

**EARLIER PENSIONS**  
The council will support at the convention a Burnaby resolution advocating old age pensions, payable to all Canadians attaining the age of sixty-five, from funds raised on a compulsory contributory basis from all wages and incomes.

Another Burnaby resolution, favoring unification of the powers of school boards, police commissions and municipal councils in one body was left to the discretion of the delegates.

### Keating

The South Saanich Young People's Club enjoyed a hike up Mount Douglas on Monday evening, in place of their regular meeting. Later, the party were guests of one of the club's former

members, Mrs. Wilfred Hulme, at her home in Victoria, refreshments being served by the hostess.

L. Faught has returned to San Francisco after spending the last month with his niece, Mrs. L. Hafer.

Mr. and Mrs. E. E. Nimmo of Saanichton are spending a few days at their summer camp at Brentwood.

Miss Ethel Bull of Bamerton is visiting her grandparents, Mr. and Mrs. F. Young.

### British Berry Men Pay High For New Plant

English strawberry growers are paying \$20 to \$25 per 1,000 for giant strawberry plants which have been developed at Evesham from British Columbia stock. The market price of the ordinary commercial varieties, Sovereign, Paxton and Bedford, is \$2.50 per 1,000 plants.

The new variety is known as Eversham No. 122, and requires to be spaced one yard apart. It was introduced to English cultivation sixteen years ago by Harry Beach, now manager of the Holsum Packing Company Limited. The variety is extensively grown on the mainland for shipping, canning and jam purposes.

For some years the merits of the new variety were overlooked by British growers and only recently has attention been given to its steadily ripening prolonged harvest period and many years of heavy production.

This variety is the only one suited to British conditions of three types of plants which Mr. Beach took from British Columbia to England in 1913.

### TWO TONS LIMIT ON GORGE BRIDGE

Limitation to two tons of the load carried by vehicles using the Gorge bridge, will be enforced by Saanich, in co-operation with Esquimalt, and the Saanich Council last night agreed to pass a load limitation by-law, submitted by Esquimalt, and to notify the Esquimalt Council of this decision. Councillor Stubbs recorded opposition after offering to support a two and one-half-ton limit.

## BIG PLANE IS TO VISIT VANCOUVER

Vancouver, July 19.—The big super-Fokker Universal ten-passenger aeroplane of the Western Canada Airways Limited, which is now at Edmonton, will arrive in Vancouver next Monday, according to word received by Major D. E. MacLaren, Vancouver manager. The plane is to leave Edmonton to-morrow and stop at points on the way to the coast, probably paying a visit to Calgary, states Major MacLaren. It is understood the plane will remain in Vancouver for three or four days, and it is planned it will return by way of Prince George.

The machine, the second largest in Canada, is the only tri-motored aeroplane in western Canada. When loaded it weighs 9,000 pounds and is valued at \$50,000. W. T. Brinfield is the pilot. The passengers include Premier John Bracken of Manitoba, Major A. M. Narraway, director of the Air Service, Ottawa, and J. Hunter, director of the Western Canada Airways Limited.

**BODY RECOVERED**

Ottawa, July 19.—The body of Sylvio Chevrier, twelve, was found to-day after a six-day search under a log jam in the Gatineau River. The lad's pet bulldog

forced its way between the logs and its yelping attracted the father, who released the animal and saw the body of his son in the hole made by the dog in an attempt to reach its master.
